Going Beyond Lending Books to Lending Technologies Janelle Sander, Lori S. Mestre, Eric Kurt, 2015-01-20 Providing library users with actual pieces of technological equipment that they can borrow is a continuously expanding service at many libraries especially as faculty and teachers require multimodal projects For some libraries loanable technology may include calculators gaming devices headphones e readers laptops and tablets Increasingly though there is also demand for all types of cameras lighting voice recorders microphones external storage devices projectors peripherals and converters among hundreds of possibilities Based on their successful program at a large research institution the authors provide a practical manual complete with examples forms and templates that cover all aspects of establishing and maintaining a loanable technology program *Going Beyond Books to Lending Technologies A Practical Guide for Librarians* provides the nuts and bolts and the behind the scenes details of developing a program and walks librarians and information technology professionals through even some of the complex decisions and processes such as needs assessment budget allocation selecting cataloging processing and storing equipment circulation billing and troubleshooting training collaborating with others to offer consultation services marketing and assessment Practical and easy to understand here is a one stop guide for anyone interested in lending technology to patrons *Enhancing Instruction with Visual Media: Utilizing Video and Lecture Capture* Smyth, Ellen G., Volker, John X., 2013-04-30 This book offers unique approaches for integrating visual media into an instructional environment by covering the impact media has on student learning and various visual options to use in the classroom Provided by publisher **The Complete Idiot's Guide to Social Media Marketing, 2nd Edition** Jennifer Abernethy, 2012-04-03 The Complete Idiot's Guide to Social Media Marketing Second Edition covers cutting edge techniques for small and large businesses alike Ask the Author Q How has social media marketing changed business and personal lives A The playing field has been leveled for business No longer do you need a 6 or 7 figure budget to reach people around the country or globe for that matter Personally many lives have been affected Many people more connected businesses have grown because of the connections TV and singing careers have been launched money has been raised for charity books have been marketed and purchased and so on Q What has been the most challenging part of utilizing social media A I think the learning curve With all of these sites they come with no directions and no LIVE phone number Q What has worked the best and worst thus far A Facebook because of its broad reach really has worked for me but many would argue that YouTube works the best particularly since it is the search engine of choice with the 11-34 age group Q How can a person searching for a job use social media marketing A So many ways They need to be on LinkedIn with a professional looking profile photo and contact information They could also utilize video to begin sharing their expertise Candidates need to stand out in a crowd of millions so if they say sent in a video introducing themselves and a video follow up email that would wow them Q What is the newest thing since Twitter A I believe companies and individuals are starting to utilize audio for creating their own iTunes

channel and also location based social media like FourSquare I personally am not sold on location based services as of yet from a safety point of view but for retailers it can be a good thing I believe video is going to explode in popularity in 2011 for the 35 market as well They just need to get comfortable being on camera
