South African Defence Force Application Form 2015:

Researching the Military Helena Carreiras, Celso Castro, Sabina Frederic, 2016-03-02 *Researching the Military* focuses on the experiences of researchers who study the military around the world. It explores the historical, social, institutional, and personal factors that frame research and scrutinize the way knowledge in this area impacts society and policy. More than merely analyzing research experiences yet necessarily including them, it is also about the experiences of researchers, their position with regard to the object of their studies, the institutional context where they work, and the way their research impacts the academic and policy making fields in the respective countries. The common theme to the various chapters is reflexivity, a conscious effort at addressing the conditions of research and the position of the researcher and the research participants in that interface. By collecting diverse experiences of researchers from across the world, this volume aims to enhance reflexivity in the field of military studies and to encourage the exchange of knowledge between the academic field and the military arena. This book will be of much interest to students of military studies, research methods, sociology, social anthropology, and security studies in general. The World Factbook 2016-17 Government Publications Office, 2016-08-18. The World Factbook provides information on the history, people, government, economy, geography, communications, transportation, military, and transnational issues for 267 world entities. The World Factbook Reference tab includes maps of the major world regions as well as Flags of the World, a Physical Map of the World, a Political Map of the World, a World Oceans map, and a Standard Time Zones of the World map. This annual edition also covers information about country profiles and country comparisons. It would make an excellent and useful resource for world geography, research papers, and international relations classes that may study the people, history, and communication patterns of other countries.

Department of Defence, 2016. **Disarmament, Demobilisation and Reintegration of Ex-Combatants in Africa** Ibrahim Bangura, 2023-07-17. This book critically examines the approaches to Disarmament, Demobilisation, and Reintegration (DDR) of ex-combatants programming in Africa. Drawing on empirical evidence from across the continent, the book investigates the different theories, contextual realities, and approaches that have informed the establishment and implementation of such programmes, the opportunities they have provided for stability, peace, and security, and the challenges with which they have contended. The book combines broader theoretical analysis with country-specific case studies including Nigeria, the Central African Republic, South Sudan, Somalia, Liberia, Sierra Leone, Burundi, Zimbabwe, South Africa, and the Democratic Republic of Congo. Overall, the book asks how DDR programming has evolved in Africa, what factors have contributed to the success or failure of DDR processes, and what we can expect for DDR in Africa in the future. This book will be a useful guide for students and researchers across the fields of Peace and Conflict Studies, Security Studies, History, Political Science, Sociology, and African Studies. **Jane's Defence Weekly**, 1986. **Farmer's Weekly**, 1928. *South Africa's Defence Industry* Greg
