South African Grade English Exam Papers:

Psychological Assessment in South Africa Sumaya Laher, Kate Cockcroft, 2013-01-01 This book provides an overview of the research related to psychological assessment across South Africa. The thirty six chapters provide a combination of psychometric theory and practical assessment applications in order to combine the currently disparate research that has been conducted locally in this field. Existing South African texts on psychological assessment are predominantly academic textbooks that explain psychometric theory and provide brief descriptions of a few testing instruments. *Psychological Assessment in South Africa* provides in depth coverage of a range of areas within the broad field of psychological assessment including research conducted with various psychological instruments. The chapters critically interrogate the current Eurocentric and Western cultural hegemonic practices that dominate the field of psychological assessment. The book therefore has the potential to function both as an academic text for graduate students as well as a specialist resource for professionals including psychologists, psychometrists, remedial teachers and human resource practitioners. *Assessing Academic Literacy in a Multilingual Society* Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience. *South African national bibliography*, 1999 Classified list with author and title index. *South African Journal of Psychology*, 1998. **Assessment of Reading in International Studies** Jenny Lenkeit, Knut Schwippert, 2020-05-21 This book brings together contributions from different scholarly contexts that address a diverse range of focused topics as well as empirical and conceptual perspectives on research with international studies. Some chapters focus on technical aspects exploring opportunities for drawing causal inferences from the data and investigating biases originating in distributional scale properties. Others are of a more conceptual nature addressing changes in the relevance of socio economic indicators across time and countries examining the exposure of mother tongue and English instruction on performance and investigating the effects of test construction on gender difference. The discussion takes a much needed meta perspective on the usefulness of international large scale assessments for educational research and allows reflection upon possibilities and opportunities for their improvement. This book was originally published as a special issue of *Assessment in Education*. *Southern Africa* David J. Cranmer, Valerie A. Woolston, 1980. *Papers*, 1925
