

The Soviet Union was a communist giant. It started after the Russian Revolution in the early 1920s and lasted until 1991. But what should a textbook writer say about it today? Three things should be emphasized: its cultural achievements, its military strength, and its political oppression.

The first area that textbook authors should emphasize is cultural achievements. This includes Russia's Olympic success in getting the most gold medals between 1952 and 1988 (Doc G) but also its incredible ballet (Doc H). It recruited children all across the country and became world class. The Soviet Union was about a lot more things than bombs and prisons.

A second emphasis should be the military. The Soviets had a lower GNP and per capita GNP than the US (Doc B) yet their military spending in 1980 was \$165 billion to only \$131 billion for the US (Doc E). They passed the US in their number of nuclear weapons and submarines (Doc E). This made the Soviets a superpower and history should never ignore a superpower.
