F. Vincent, 18?? Making, Selling and Wearing Boys' Clothes in Late-Victorian England Clare Rose, 2016-12-05 There has been a great deal of recent interest in masculine clothing examining both its production and consumption and the ways in which it was used to create individual identities and to build businesses from 1850 onwards Drawing upon a wide range of sources this book studies the interaction between producers and consumers at a key period in the development of the ready made clothing industry It also shows that many innovations in advertising clothing usually considered to have been developed in America had earlier British precedents To counter the lack of documentary evidence that has hitherto hampered research into the dress practices of non elite groups this book utilises thousands of unpublished visual documents These include hundreds of manufacturers designs which underline an unexpected degree of investment by manufacturers in boys clothing and which was matched by heavy investment in advertising with thousands of images of boys clothing for shop catalogues in the Stationers Hall copyright archive Another key source is the archives of Dr Barnardo s Homes This extraordinary collection contains over 15 000

documented photographs of boys entering between 1875 and 1900 allowing us to look beyond official polarization of raggedness and respectability used by charities and social reformers of all stripes and to establish the clothing that was actually worn by a large sample of boys A close analysis of 1 800 images reveals that even when families were impoverished they strove to present their boys in ways that reflected their position in the family group and in society By drawing on these visual sources and linking the design and retailing of boys clothing with social cultural and economic issues this book shows that an understanding of the production and consumption of the boys clothing is central to debates on the growth of the consumer society the development of mass market fashion and concepts of childhood and masculinity *A Practical Guide for the Tailor's Cutting-room* Joseph Coutts,1848 [A Tailoring Guide to Pattern Drafting](#) Katerina Lawton,2025-09-15 A Tailoring Guide to Pattern Drafting Volume 2 offers pattern drafting instructions for men s most popular tailored garment styles from 1850 to 1900 used in theatres and film productions today The second volume features a wide range of 19th century garments providing information and detailed instructions on the dress coat dinner jacket Norfolk jacket reefer jacket overcoat Inverness coat shoulder cape shooting sporting and dress cape three quarter circle cape pointed and rounded hood dressing gown pyjamas single and double breasted evening dress waistcoats with a V or U shaped neckline collars and lapels sleeves knickerbockers and waistcoat and trousers for the corpulent figure Volume 2 features More instructions and a variety of garments for 19th century menswear A brief history of each garment accompanied by colourful illustrations Instructions incorporating both the imperial and metric systems Recommendations on choosing the appropriate modern day equivalent fabric Recommendations on the quantity of the fabric Recommendations on the button size to make the garment appear more authentic A Tailoring Guide to Pattern Drafting is intended for anyone with a desire to learn or refine their costume cutting skills for theatre and film production The book is aimed at undergraduate and graduate students tutors and both amateur and professional makers interested in the subject To access the author s YouTube channel featuring 130 step by step lessons to make a 19th century morning coat using classical tailoring techniques visit www.routledge.com/9780367265359
