
Solutions to Chapter 9 Problem Assignments

Check Your Understanding

1. *Corporate Income*

Explain how a corporation's income is subject to double taxation.

Solution: Corporate income is taxed as regular income as it is earned by the corporation; it is taxed a second time when the corporation distributes that income as dividends to its shareholders.

2. *Corporate Characteristics*

List five desirable characteristics of the corporate form of business.

Solution: 1. Limited liability for owners; 2. Ease of raising capital; 3. Ease of selling ownership interest (shares); 4. Ability of owner-shareholder to receive a salary deductible as an expense by the corporation; 5. Ability of owner-shareholder to participate in corporate fringe benefits. (There are benefits beyond these five.)

3. *Dividend Received Deduction*

What is a dividend received deduction? What are the percentages and when do they apply? When is the dividend received deduction limited to a percentage of net income?

Solution: The dividend received deduction is a percentage of a dividend received by another corporation that is allowed as a deduction from that corporation's income and, as a result, is not subject to tax.

A corporation that owns less than 20 percent of another corporation is entitled to a 70 percent dividend received deduction. A corporation that owns at least 20 percent but less than 80 percent is entitled to an 80 percent dividend received deduction. An affiliated corporation (80 percent or more ownership) is entitled to a 100 percent dividend received deduction.

A dividend received deduction is limited to a percentage of net income unless taking the full dividend received deduction creates or increases a net operating loss for the corporation.

4. *Charitable Contribution*

What is a corporation's overall charitable contribution deduction limitation?

Solution: The contribution deduction is limited to 10 percent of net income before the dividend received deduction and any net operating or capital loss carrybacks.

5. *NOL Carryovers*

What are the carryover periods for corporate net operating losses?

Solution: Net operating losses may be carried back 2 years and forward 20 years.
