Performance Analysis of On-demand Pressurized Irrigation Systems Nicola Lamaddalena, J. A. Sagardoy, Food and Agriculture Organization of the United Nations, 2000-01-01 With the strong competition that is arising for water resources the modernisation of irrigation systems is becoming a critical issue One of the alternatives to modernisation is the use of pressurised systems to replace part of the existing networks This publication analyses the performance of pressurised irrigation systems operating on demand and provides revised criteria for the design of such irrigation networks For this purpose new approaches and a computer program have been developed The program has been tested in several field situations in the Mediterranean Basin and has demonstrated its usefulness not only by quickly identifying weak points in irrigation networks but also by identifying the power requirements of pumping stations needed to satisfy varying demand situations
Cruising World , 2001-01
Mac Life , 2007 MacLife is the ultimate magazine about all things Apple It's authoritative ahead of the curve and endlessly entertaining MacLife provides unique content that helps readers use their Macs iPhones iPods and their related hardware and software in every facet of their personal and professional lives
