Student Loans and the Cost of College Paula Johanson,2017-12-15 Getting into college is one giant hurdle to clear and paying for it is quite another This book breaks down the expenses associated with higher education the various payment options available for students including student loans need based scholarships and merit based scholarships and what other avenues may exist for families to ensure that costs associated with tuition room and board stay reasonable Concerns about paying off student loans interest rates and timelines are also addressed in this informative collection **Complete College Financing Guide** Marguerite J. Dennis,1994 **Financial Aid and Loans for Students Crash Course** IntroBooks,2019-12-21 Different schools have different policies regarding how they offer financial aids to students A student

seeking financial aid from any particular institution will therefore do well to stay abreast of information about that particular institution and its regulations regarding financial aid Each of these schools has different aims regarding how much of student financial needs they are willing to meet While some schools like Columbia University intend to meet 100% of the students needs financially some other schools go less Grants are given to students without repayment The amount of grant varies based on the level of education and also the complexity of the study work or project In the case of New York University for example grants provided only meet 68% of the student s needs this means the student may experience budget gap This same school gives most of its aids to its students in the form of loans which the student is expected to pay back after graduation Some conditions also determine how much of the student s needs the school can meet A student with solid academic performance for example can benefit from a higher percentage of financial aid compared to another student not having such performance Some other schools consider the financial strength of the student or that of his her parent when offering financial aids However a school like Columbia University mentioned earlier does not utilize such measure to determine who to give student loan and who not to give they give their students aids based on merit alone It translates to the fact that even Bill Gate s son can get student aid based on merit in this school There are several other schools in the same category some of such schools offering their students merit aid are Brown University Pomona College Amherst College Williams College Princeton University and Massachusetts Institute of Technology In calculating merit award the institutions concerned would consider the percentage discount off tuition Private colleges offer average tuition discount of 33.5% this means a student can end up paying only 19,650 if the actual tuition fee is 30,000 The cut represents 33.5% of the actual fee In public college on the other hand the student is given just 15% cut off the actual price When seeking for school financial aid the school can give the student verbal assurance but this is never enough The best guide a student can have regarding financial aids is the Common Data Set Each of the schools in the united states has a Common Data Set it is an amazing document more or less a treasure trove of statistics on the characteristics valued by the school in its application retention freshmen class profile and enrollment The document will equally show the number of students requiring financial aid from the institution concerned as well as the number of students that are given Furthermore the document reveals information about the percentage of student s needs the institution can meet how the awards are split between loans and grants as well as what average package is worth The student can easily search the major search engines for Common Data Set specific for any school The internet can reveal information about in house scholarship and college aids for easy access Such information can equally reveal if a student is qualified for financial aid or not Some schools like Baylor University provide scholarship calculator on their website which helps the student check eligibility for any particular scholarship program related to the school Eligibility for any scholarship is usually determined by the class rank of the student as well as his her ACT or SAT score Why Student Loans Are Different Jason Delisle, Alexander Holt, 2015 For all the attention student loans have received in the media and from

policymakers in recent years there is still remarkably little information on why and how borrowers struggle to repay them. Rising college prices and debt levels explain some of the troubles borrowers have with their loans as does a slow economic recovery that has caused unemployment and underemployment. To seek a broader explanation of student loan struggles, New America's Education Policy Program commissioned a series of six focus groups that met between June and October 2014. Groups met in Philadelphia, Boston, Phoenix, San Francisco, Chicago, and Atlanta and included a total of 59 student loan borrowers. Participants were selected based on a range of characteristics regarding their self-reported repayment histories, but all indicated they had at some point struggled to repay their student loans. This paper provides a broad and objective look at struggling borrowers and spotlights specific explanations and details that participants provided about their borrowing and repayment experiences that may be surprising to the federal policy community. The New America Education Policy Program's work is made possible through generous grants from the Alliance for Early Success, the Annie E. Casey Foundation, the Bill and Melinda Gates Foundation, the Grable Foundation, the Foundation for Child Development, the Joyce Foundation, the Kresge Foundation, Lumina Foundation, the Pritzker Children's Initiative, the William and Flora Hewlett Foundation, and the W. Clement and Jessie V. Stone Foundation.
