

The background of the cover is a high-magnification, false-color micrograph of a semiconductor die. The die is rectangular and filled with a complex, repeating pattern of circuitry. Different functional blocks are highlighted in various colors: large green rectangular blocks, smaller red blocks, and purple/pinkish regions. A network of fine, dark lines represents the interconnects between these blocks. The overall image has a technical, high-contrast appearance typical of semiconductor manufacturing inspection.

Transforming Tomorrow: Innovative Solutions and Global Trends in Electrical and Electronics Engineering

Namit Gupta, Anjali Gupta, Naresh Purohit, Shiraz Husain, 2025-06-03 The International Conference on Transforming Tomorrow Innovative Solutions and Global Trends in Electrical and Electronics Engineering Pragyata 2025 is scheduled to be held on May 5 6 2025 at Shri Vaishnav Vidyapeeth Vishwavidyalaya Indore Madhya Pradesh India This prestigious event aims to provide a dynamic platform for researchers academicians industry professionals and students to exchange knowledge showcase cutting edge innovations and discuss global trends shaping the future of Electrical and Electronics Engineering Pragyata 2025 will feature sessions and presentations on key emerging areas including Robotics Renewable Energy Smart Grids Mechatronics 5G Communications Artificial Intelligence and the Internet of Things IoT The conference is designed to foster meaningful dialogue cross disciplinary collaboration and engagement with leading experts from academia and industry In line with its theme of Transforming Tomorrow the conference emphasizes clarity innovation and sustainable development It will serve as a catalyst for forward looking discussions and solutions that address modern engineering challenges and contribute to building a smarter greener and more connected world With a commitment to being Concise Clear and Cohesive Pragyata 2025 is set to become a significant academic and professional milestone in advancing technological progress and inspiring future innovation across the Electrical and Electronics Engineering spectrum

Advances in the Internet of Things Qusay F. Hassan, 2025-07-17 Many reports estimated that in 2024 the number of Internet of Things IoT devices exceeded 18 billion worldwide with predictions suggesting that it could reach nearly 40 billion by 2033 Despite primarily being consumer devices a growing number of them will find use in industrial and enterprise applications This shows the significance of IoT and how it shapes the future However to realize its full potential we must address its emerging challenges and highlight recent applications advances and trends which is the focus of this book Security and privacy represent some of the key challenges IoT adopters face The severity of these issues is exacerbated by the growing number of IoT devices the expansion of Industry 4 0 and the emergence of Industry 5 0 and the significant increase in cybersecurity attacks Considering that ensuring security and privacy is crucial for the successful adoption of IoT this book dedicates several chapters to these areas This book also introduces some novel models that improve IoT environments and presents several practical implementations that utilize IoT to demonstrate some of its real world applications Furthermore it examines several emerging technologies that enable the realization of advanced IoT environments We see most IoT advances in three main areas the integration of artificial intelligence machine learning network technologies and hardware design Therefore this book dedicates several chapters to these areas Most chapters touch on artificial intelligence machine learning emphasizing the significance of these technologies in today s and next generation applications The main objective of this book is to capture the state of the art in IoT and explore some of its emerging challenges solutions and technologies This peer reviewed
