Top Trump World Cup 2014:

The Indo-Pacific: Trump, China, and the New Struggle for Global Mastery Richard Javad Heydarian, 2019-09-25

This book places the presidency of Donald Trump as well as the brewing Sino American Cold War within the broader historical context of American hegemony in Asia which traces its roots to Alfred Thayer Mahan's call for a naval build up in the Pacific the subsequent colonization of the Philippines and ultimately reaching its apotheosis after the defeat of Imperial Japan in the Second World War The book drawing on visits from Cairo to California and Perth to Pyongyang as well as interviews and exchanges with heads of state and senior officials from across the Indo Pacific provides an overview of the arc of American primacy in the region for scholars journalists and concerned citizens

The Plot Against the President Lee Smith, 2019-10-29 Investigative journalist Lee Smith uses his unprecedented access to Congressman Devin Nunes former head of the House Intelligence Committee to expose the deep state operation against the president and the American people Investigative journalist Lee Smith's *The Plot Against the President* tells the story of how Congressman Devin Nunes uncovered the operation to bring down the commander in chief While popular opinion holds that Russia subverted democratic processes during the 2016 elections the real damage was done not by Moscow or any other foreign actor Rather this was a slow moving coup engineered by a coterie of the American elite the deep state targeting not only the president but also the rest of the country The plot officially began July 31 2016 with the counterintelligence investigation that the FBI opened to probe Russian infiltration of Donald Trump's presidential campaign But the bureau never followed any Russians In fact it was an operation to sabotage Trump the candidate then president elect and finally the presidency The conspirators included political operatives law enforcement and intelligence officials and the press The plot was uncovered by Nunes chairman of the House Intelligence Committee and his investigative team They understood that the target of the operation wasn't just Trump but rather the institutions that sustain our republic A country where operatives use the intelligence and security services to protect their privileges by spying on Americans coordinating with the press and using extra constitutional means to undermine an election then undo a presidency is more like the third world than the republic envisioned by the founding fathers Without Nunes and his team the plot against the president and against the country never would have been revealed Told from the perspective of Nunes and his crack investigators men and women who banded together to do the right thing at a crucial moment for our democracy the story of the biggest political scandal in a generation reads like a great detective novel feels like a classic cowboy movie The congressman from the cattle capital of California really did fight corruption in Washington Devin Nunes took on the deep state

The Road to Unfreedom Timothy Snyder, 2019-04-09 NEW YORK TIMES BESTSELLER From the author of *On Tyranny* comes a stunning new chronicle of the rise of authoritarianism from Russia to Europe and America A brilliant analysis of our time Karl Ove Knausgaard *The New Yorker* With the end of the Cold War the victory of liberal democracy seemed final Observers declared the end of history confident in a peaceful globalized future This faith was misplaced Authoritarianism returned to Russia as Vladimir Putin found fascist ideas that could be used to justify rule by the wealthy In the 2010s it has spread from east to west aided by Russian warfare in Ukraine and cyberwar in Europe and the United States Russia found allies among nationalists oligarchs and radicals everywhere and its drive to dissolve Western institutions states and values found resonance within the West itself The rise of populism the British vote against the EU and the election of Donald Trump were all Russian goals but their achievement reveals the vulnerability of Western societies In this forceful and unsparing work of contemporary history based on vast research as well as personal reporting Snyder goes beyond the headlines to expose the true nature of the threat to democracy and law To understand the challenge is to see and perhaps renew the fundamental political virtues offered by tradition and demanded by the future By revealing the stark choices before us between equality or oligarchy individuality or totality truth and falsehood Snyder restores our understanding of the basis of our way of life offering a way forward in a time of terrible uncertainty
