Tshwane University Technology Application Form For 2015:

Environmental Science and Information Application Technology David Chan,2015-06-29 Environmental Science and Information Application Technology contains selected papers from the 2014 5th International Conference on Environmental Science and Information Application Technology ESIAT 2014 Hong Kong 7 8 November 2014 The book covers a wide variety of topics Global Environmental Change and Ecosystems Management Graphic and I **Cloud Technology: Concepts, Methodologies, Tools, and Applications** Management Association, Information Resources,2014-10-31 As the Web grows and expands into ever more remote parts of the world the availability of resources over the Internet increases exponentially Making use of this widely prevalent tool organizations and individuals can share and store knowledge like never before Cloud Technology Concepts Methodologies Tools and Applications investigates the latest research in the ubiquitous Web exploring the use of applications and software that make use of the Internet s anytime anywhere availability By bringing together research and ideas from across the globe this publication will be of use to computer engineers software developers and end users in business education medicine and more Strategic Information Technology Governance and Organizational Politics in Modern Business Iyamu, Tiko,2015-07-17 Individually the fields of organizational politics and strategic information technology have soared in popularity Studies suggest that the interaction between the two would prove beneficial to both the academic and corporate domains This integration would serve to enable support and manage modern businesses Strategic Information Technology Governance and Organizational Politics in Modern Business gives voice to fresh perspectives on the development implementation and practice of information systems and technology in organizations This book is beneficial for business people undergraduate students postgraduate candidates and researchers looking to gain a more in depth understanding of the influence of socio technical factors on ICT operations **Gender, Protests and Political Change in Africa** Awino Okech,2020-07-03 This book brings together conceptual debates on the impact of youth hood and gender on state building in Africa It offers contemporary and interdisciplinary analyses on the role of protests as an alternative route for citizens to challenge the ballot box as the only legitimate means of ensuring freedom Drawing on case studies from seven African countries the contributors focus on specific political moments in their respective countries to offer insights into how the state society social contract is contested through informal channels and how political power functions to counteract citizen s voices These contributions offer a different way of thinking about state building and structural change that goes beyond the system based approaches that dominate scholarship on democratization and political structures In effect it provides a basis for organizers and social movements to consider how to build solidarity beyond influencing government institutions Chapters 3 5 and 6 are available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com) **Decolonisation after Democracy** Laurence Piper,2020-05-21 Decolonisation after Democracy addresses the provocative idea that we need to rid higher education of lingering forms of

colonial knowledge This matters because in the colonial era much knowledge was put to the service of subjugating indigenous peoples and the assumptions from this era may linger into the present Examples of deep rooted and foundational forms of knowledge that carry colonial traits are normative binaries such as civilised and backward modern and traditional and rational and superstitious In addition some accounts of positive values like freedom equality justice and democracy may hide the assumption that the western experience is the norm from which other kinds are rendered imitations deviations or pathologies In this collection some of South Africa s leading political scientists and academics engage with the challenge of decolonising knowledge in the research and teaching of politics It includes new insights about the state international relations clientelism statesociety relations and land reform and introduces new ways to engage the colonial library curriculum reform and the marginality of historically black institutions Finally the contributors deal with the decolonial challenge posed by the FeesMustFall student movements reflecting on issues of revolutionary politics and gender and sexual violence This book was originally published as a special issue of *Politikon*

BRICS and Resistance in Africa Justin van der Merwe, Patrick Bond, Nicole Dodd, 2019-10-15 Though initially considered a welcome counterweight to Western interest across Africa the BRICS are increasingly being viewed as another example of foreign interference and exploitation *BRICS and Resistance in Africa* explores the varied forms of African resistance being developed in response to the growing influence of the BRICS Its case studies cover such instances as the opposition to China s One Belt One Road initiative in East Africa resistance to the BRICS oil activities in the Niger Delta and the role of the BRICS in Zimbabwe s political transition The contributors expose the contradictions between the group s rhetoric and its real impact as well as the complicity of local elites in serving as proxies for the BRICS nations By challenging and expanding the debates surrounding BRICS involvement in Africa this collection offers new insight into resistance to globalization in the global South

Deanship in the Global South Oliver J.J. Seale, 2021-02-08 The university today is a postmodern neo liberal competitive boundary less knowledge conglomerate a far cry from its historical traditional classical and collegial roots There is a body of literature on deanship that points to its evolving nature in the contemporary academe characterised by complexity and change Balancing academic demands simultaneously with the requirements for effective performance leadership and management lies at the heart of this very challenging bridging role nowadays Deans are generally former academics emerging from a traditional collegial space and often catapulted into the relatively unknown domain of executive management with its related problems Deans nowadays are required to be more than collegial intellectual leaders They are also meant to be fiscal and human resource experts fundraisers politicians and diplomats *Deanship in the Global South Bridging Troubled Waters* is about the deans lived reality as they try to balance the demands of both the academe from which they emerge and the administration to whom they now need to account Their lack of preparation and inadequate support points to the need for a more strategic integrated approach to leadership development within their critical bridging roles between the academe and administration

Learning for a Better Future Suzanne Hattingh, 2021-12-31 Various international scholars and associates of the PASCAL Place Social Capital and Learning Regions International Observatory Africa hub under the auspices of the Centre for Local Economic Development CENLED based at the University of Johannesburg UJ have contributed chapters in this scholarly book. The book aims to demonstrate how a combination of globalisation, pandemics and the impact of innovation and technologies are driving towards a world in which traditional ideas are being challenged. The book carries forward a dual context and relevance to South African social, educational, economic and cultural development and the broader international context and action directed at how lifelong learning for all can be fostered in communities as a foundation for a just, human-centred, sustainable world. The distinctive contribution of this book to the production of a local body of knowledge lies in the symbiotic relationships between these objectives so that South Africa could serve as a test case in working towards approaches that have a wider international significance. *ECRM2016-Proceedings of the 15th European Conference on Research Methodology for Business Management* "Vladlena Benson, Fragkiskos Filippaios, 2016-05-20

Rediscovering the Essentiality of Marketing Luca Petruzzellis, Russell S. Winer, 2016-06-27 This book contains the full proceedings of the 2015 Academy of Marketing Science World Marketing Congress held in Bari, Italy. The current worldwide business environment is leading marketing scholars and practitioners to reconsider a number of historical and current views of the marketplace and how it functions. Further determining new marketing theories and practical methods whose effectiveness can be truly measured must be added to the list of current challenges for today and tomorrow. In such a period in marketing history, achieving and managing efficient and effective marketing actions is a necessity. Determining such actions is based on practical experience, solid theory and appropriate research methodology. The enclosed papers focus on new research ideas on vibrant topics that can help academics and practitioners gain new perspectives and insights into today's turbulent marketplace. Founded in 1971, the Academy of Marketing Science is an international organization dedicated to promoting timely explorations of phenomena related to the science of marketing in theory, research and practice. Among its services to members and the community at large, the Academy offers conferences, congresses and symposia that attract delegates from around the world. Presentations from these events are published in this Proceedings series which offers a comprehensive archive of volumes reflecting the evolution of the field. Volumes deliver cutting edge research and insights complementing the Academy's flagship journals, *Journal of the Academy of Marketing Science* (JAMS) and *AMS Review*.
