

Volume of a Cone

The **volume of a cone** is the amount of space inside a cone.
The volume of a cone is **one third of the volume of a cylinder**.
The volume of a cone can be calculated using a formula.

To do this, we substitute two of the dimensions of the cone into the volume formula, and evaluate the result.

The volume formula for any cone is: $\text{Volume} = \frac{1}{3}\pi r^2 h$

Where r is the radius of the base of the cone and h is the perpendicular height of the cone.
