Pamphlets on Biology, 1927 **Mercy Town** ACR, 2017-07-31 The year is 1999 and Tonya Sommers life is as promising as one could imagine Graduating Valedictorian popular among all the students and well known in her church she spends Friday nights caring for her invalid grandmother Engaged to a prominent real estate broker and headed for a top University with legacy ties to one of the larger sororities it would seem that all she had to do was enjoy the ride The halls of higher education will many times take the form of a moral social labyrinth and Tonya finds herself caught in an emotional spiritual and intellectual whirlwind of conflicting beliefs voided convictions paper thin assurances and the disturbed realization of her own sexuality Manipulation in life s entirety marks the devious archetype of Glen Forrest His motivations are singular and egocentric while his words are rehearsed and inauthentic Once you understand his business his actions will not surprise you but when the perversions of a middle age man spill from the beach bars into this University schoolyard justice amends and redemption find definition without the help of a courtroom Jason Lancer has a problem he does not have a clue how to fix Instead he surrounds himself with the simple objective pleasures afforded by money and drugs The little University town in which he lives enables his delusions of grandiosity As each graduating class departs the newest students always bring a fresh set of opportunities with them that Jason s refined cool has had no problem exploiting Yet when he is introduced to Tonya his cool gives way to a genuine yearning and he dismissively finds himself driven beyond all limits Waves women and weed are Raymond Meyers three favorite things So a University near his home beach with a five to one girl to guy ratio near a major spring break destination seemed to him a no brainer When he meets Jason he settles into a school connection and when he meets Tonya he thinks he falls in love Love as seen from a school boy s perspective can be devastating and Ray plays the role precisely William Barrett excels at two things He knows how to survive on the leftovers and he knows his drums well enough to get him into college early on a full ride even when the chair of the department will swear He is only fifteen years old and I ve seen his middle school transcript He is a discipline problem Welcome to Mercy Town **The Seaside Sparrow, Its Biology and Management** Thomas L.
