

VOLVO COMPACT EXCAVATOR
EC20B XT, XTV

MORE CARE. BUILT IN.

DIG IN TO SOLID PERFORMANCE.

When you want a strong and reliable compact excavator to meet your toughest demands - look to the Volvo EC20B. Its compact design is big on versatility, comfort and performance. Built for easy operation and maintenance, it's the most cost-effective business investment you'll ever make.

Move with precision

The Volvo EC20B is also built for precision work. Utilizing the best technology available, the closed-center load-sensing hydraulic system delivers precise control under any condition. Hydraulic speed relies only on the position of the control levers, regardless of the load or number of movements. This quality allows you to control all machine movements for less precision and more productive work.

Increase your speed and productivity

The unit also features fast load speeds for fast cycle times that save both time and money. The exclusive quick coupling system lets you easily connect an attachment or switch right from the cab for increased speed and efficiency.

Compact by design

The hydraulic offset of the boom reduces the overall machine dimensions, helping you work in tight spaces and alongside walls. In addition, the wrap-around shape of the counterweight provides protection against rear impact.

Built strong

The EC20B features a double-pin joint that doubles the bearing surface on the chassis. There is also a long pin that distributes the stress for reduced wear and longer life. The boom and dipper structure incorporate cast steel parts or heavily stressed areas. Heavy steel plates protect all hydraulic connections for reduced spilling costs. A hydraulic motor drives the swing gear directly without a reduction gear, offering no wear in play. Heavy duty towing and anchor points make coupling jobs easier. An optional pin that secures locks the machine's starting and hydraulic function for added safety.

Adapts flexibility

The variable-width chassis offers the choice of two cost-effective production options. Choose the exceptional stability of an ultra-wide chassis or the versatility of a machine that can fit through small spaces with an overall width reduced to less than 7 ft. The 200-hp unit tracks offer excellent stability, traction and long life. For increased flexibility, the blade system offers two side extensions. Each blade can be fixed or removed without tools to save time and money.

► Double-pin joint and long pin

► Wrap-around shape for greater stability

► Blade system for fast, easy changes
