What We Do Next Really Matters Mark Roeder,2022-04-29 The choices we make over the next few years will resonate for decades and perhaps centuries This is because our world is at a critical turning point in history as old certainties are swept aside by a global pandemic climate change and political upheaval How we respond to these challenges will determine whether we usher in a new Age of Enlightenment or a second Dark Ages In this compelling book Mark Roeder makes sense of our predicament and explains why we must reconsider some of our most fundamental beliefs Our current path is not sustainable socially environmentally or economically We are literally devouring our planet and our communities are becoming more polarised and fearful of the future The time has come for us to make some bold changes to the way we live This book explains what these changes should be and how to implement them *Bulletin of the Atomic Scientists* ,1954-03
