Ryan Hediger, 2019-10-15 Introducing a posthumanist concept of nostalgia to analyze steadily widening themes of animality home travel slavery shopping and war in U S literature after 1945 In the Anthropocene as climate change renders environments less stable the human desire for place underscores the weakness of the individual in the face of the world In this book Ryan Hediger introduces a distinctive notion of homesickness one in which the longing for place demonstrates not only human vulnerability but also intersubjectivity beyond the human Arguing that this feeling is unavoidable and characteristically posthumanist Hediger studies the complex mix of attitudes toward home the homely and the familiar in an age of resurgent cosmopolitanism especially eco cosmopolitanism Homesickness closely examines U S literature mostly after 1945 including prominent writers such as Annie Proulx Marilynne Robinson and Ernest Hemingway in light of the challenges and themes of the Anthropocene Hediger argues that our desire for home is shorthand for a set of important hopes worth defending serious and genuine relationships to places and their biotic regimes and landforms membership in vital cultures human and nonhuman resistance to capital infused forms of globalization that flatten differences and turn life and place into mere resources Our homesickness according to Hediger is inevitable because the self is necessarily constructed with reference to the material past Therefore homesickness is not something to dismiss as nostalgic or reactionary but is rather a structure of feeling to come to terms with and even to cultivate Recasting an expansive range of fields through the lens of homesickness from ecocriticism to animal studies and disability studies eco philosophy to posthumanist theory Homesickness speaks not only to the desire for a physical structure or place but also to a wide range of longings and dislocations including those related to subjectivity memory bodies literary form and language **The Wal-Mart Way** Don Soderquist, 2005-04-19 Since Sam Walton's death in 1992 Wal Mart has gone from being the largest retailer in the world to holding the top spot on the Fortune 500 list as the largest company in the world Don Soderquist who was senior vice chairman during that time played a crucial role in that success Sam Walton said I tried for almost twenty years to hire Don Soderquist But when we

really needed him later on he finally joined up and made a great chief operating officer Responsible for overseeing many of Wal Mart s key support divisions including real estate human resources information systems logistics legal corporate affairs and loss prevention Soderquist stayed true to his Christian values as well as Wal Mart s distinct management style Probably no other Wal Mart executive since the legendary Sam Walton has come to embody the principles of the company s culture or to represent them within the industry as has Don Soderquist Discount Store News once reported In The Wal Mart Way Soderquist shares his story of helping lead a global company from being a 43 billion company to one that would eventually exceed 200 billion Several books have been written about Wal Mart s success but none by the ones who were the actual players It was more than Everyday Low Prices and distribution that catapulted the company to the top The core values based on Judeo Christian principles and maintained by leaders such as Soderquist are the real reason for Wal Mart s success
