tackle current socio cultural issues **Mobile Tech Report 2014** John R. Roberts, 2014-01-10 If you read technology news you ll notice it s not just a story of amazing new product introductions or even that plus copycat product introductions All the usual aspects of business are there fierce competition new contenders old survivors great ideas but business failures mediocre ideas that somehow seem to succeed and prosper As a reporter commentator and blogger on mobile technology I ve collected what happened in the industry in 2013 and make predictions on what will and won t happen in 2014 You can read what did happen in the mobile technology in 2013 Often I deliver a comment with the news item and usually there is a link to the web page of the original announcement This way you can dive into any detail level you desire read my news feed for the overview or follow the related web link to the longer article History is moving so fast now that it is all recorded electronically but I m surprised no one else has collected it and presented it for consideration Here is 2013 from the mobile technology industry for your consideration along with my own observations and opinions about where things are headed It s often overlooked that the technology industry is an industry By that I mean its main concerns are profit and growth As consumers we love the new products and unique abilities we are gaining from technology but it is a business akin to any other trying to seduce us to pry money out of our wallets So I cover the horse race aspect of the business who s up who s down Is that changing Is that likely to change The longer implications of what the technology industry is doing are vast and social We are moving to an always on always connected society where we can communicate with someone instantly and find an answer to any question quickly The entire database of human knowledge is now available in the palm of your hand whenever you desire it Everything is there the good the bad right and wrong hate and love music and noise We are obsessed with technology not in and of itself but as a means to an end Technology is the means to satisfy our curiosity or even our desire for self expression We are taking photos machine gun style with our smartphones and choose the few to share As humans we are gathering ever more data about ourselves and sharing more about ourselves than we probably thought possible Bill Gates was once asked why the computer industry had generated so much improvement in its products over a relatively few years He gave some boring answer about Moore s Law but the real answer is that computers are in their teenage years They are growing and growing They will not always do so So too the technology industry is in a state of rapid change I see the shift to smaller devices as a new paradigm smashing some businesses and growing others into giants Their stories are here in the news In short here are predictions for what won t and will happen in 2014 for the mobile technology industry breakdowns of marketshare figures on the horse race aspect of the business chapters on Apple Samsung Google Microsoft Nokia Blackberry Amazon Yahoo news about social media giants Facebook Twitter Google LinkedIn Foursquare SnapChat and the carriers themselves Verizon AT T Sprint and T Mobile You can also review my 2013 mobile predictions and see my track record on predictions Finally there are some essays on how all this mobile tech is figuring into our lives I ve divided the news into the subjects it covers but also put in the appendix all the news as it came out in chronological ordering

You can read the firehose of events in the appendix or just read about one topic at a time in the earlier chapters Table of Contents Preface Introduction Chapter 1 2014 Predictions Chapter 2 Mobile Marketshare Chapter 3 Apple Chapter 4 Samsung Chapter 5 Google Chapter 6 Microsoft Chapter 7 Nokia Chapter 8 Blackberry Chapter 9 Amazon Chapter 10 Social Media Chapter 11 Yahoo Chapter 12 Carriers Chapter 13 2013 Predictions Chapter 14 Essays Appendix

Transnational Communities in the Smartphone Age Dae Young Kim, 2017-12-20 Transnational Communities in the Smartphone Age The Korean Community in the Nation s Capital examines the durable ties immigrants maintain with the home country and focuses in particular on their transnational cultural activities In light of changing technologies especially information and communication technologies ICTs which enable a faster easier and greater social and

cultural engagement with the home country this book argues that middle class immigrants such as Korean immigrants in the Washington Baltimore region sustain more regular connections with the homeland through cultural rather than economic or political transnational activities Though not as conspicuous and contentious as other forms of transnational participation cultural transnational activities may prove to be more lasting and also serve as a backbone for maintaining longer lasting connections and identities with the home country The Smartphone as a Product of the Cognitive Niche Dorothea Cosima

Adler,2024-10-02 This book explores sex differences in Mobile Instant Messaging through an evolutionary psychological lens with a particular focus on the use and perception of text and voice messages in same sex friendships Not only are these differences examined from an evolutionary standpoint but also smartphones are considered as a product of evolution By further integrating media psychological theories Dorothea C Adler provides an innovative perspective on sex differences in voice and text message use and perception within same sex friendships A total of five studies address these aspects both from the sender s as well as receiver s perspective Altogether this work not only presents an evolutionary theoretical foundation for understanding sex differences in Mobile Instant Messenger communication among same sex friends but also offers an innovative approach for further evolutionary media psychological research *Big Data, Health Law, and Bioethics*

I. Glenn Cohen,Holly Fernandez Lynch,Effy Vayena,Urs Gasser,2018-03-08 When data from all aspects of our lives can be relevant to our health from our habits at the grocery store and our Google searches to our FitBit data and our medical records can we really differentiate between big data and health big data Will health big data be used for good such as to improve drug safety or ill as in insurance discrimination Will it disrupt health care and the health care system as we know it Will it be possible to protect our health privacy What barriers will there be to collecting and utilizing health big data What role should law play and what ethical concerns may arise This timely groundbreaking volume explores these questions and more from a variety of perspectives examining how law promotes or discourages the use of big data in the health care sphere and also what we can learn from other sectors Mobile Participation Christelle Scharff,Caroline

Wamala-Larsson,2015-10-28 This volume brings together papers from academics and practitioners on specific issues related to mobile participation in the context of development originally presented at the fourth conference on Mobile Communications for Development M4D 2014 M4D research focuses on understanding the use of mobile technologies and services and how they directly or indirectly address socio economic challenges In development participation suggests that stakeholders can partake in the processes that will benefit them and this concept has been much studied by scholars who sought to understand its meaning and contribution to development Mobile participation on the other hand has not received as much scholarly attention The core question the book addresses is In what ways do mobile technologies enable enhance and perhaps even effect civic participation in everyday life The contributions to this collection provide empirical evidence and further analyses of the opportunities and limitations of what this book refers to as mobile participation in development in

areas ranging from literacy health media production and digital inclusion to governance water management as well as privacy They show that simpler devices such as basic phones offer higher degrees of participation depending on the existing infrastructure and the social frameworks within which the technologies are employed
