

Welcome to the Team Email Template

Hi all,

I am very happy to announce that our team is growing! Next week (or be specific, on April 1), three new employees (or just say a new employee if it is one hire) will be joining our company.

- Tony Stark is joining the sales department on April 1 as our new Sales Team Leader. He will now head our incredible sales department and is keen to help us shatter our KPI quarterly numbers. Tony has six years of experience with three top companies, like Google, and has a Bachelor's Degree from NYU. P.S., he loves football and going for runs so be sure to reach out if you need a running buddy.
- Second employee's full name, along with the same style of information as listed above.
- Third employee's full name, along with the same style of information as listed above.

Please join me in giving a very warm welcome to our new team member(s) and be sure to introduce yourselves!

Warm regards,

Pepper Potts
CEO

Mental Math Abhishek VR,2019-05-19 Discover the Mental Math Secrets to Become a Human Calculator Schools taught you a way to do math that works when you have a pen paper But the same methods takes a lot of effort when you have to do math in your head This is because it uses a lot of your working memory the short term memory used to complete a mental task For example try to mentally multiply 73 201 x 3 It might take only a few

seconds to multiply the individual digits But if you multiply right to left the way you learnt in school you will rely on your working memory You will use it to recall every single digit you calculate to put it back together and get your final answer You may even find yourself calculating some digits again because you forgot one of the numbers The difficulty increases further when you have to multiply larger numbers like 732×323 You will have to remember numbers across many steps Mental arithmetic would be a lot easier to do in your head if you didn't have to remember so many numbers In school you learnt to write the down numbers as you calculate to free up your working memory In mental math there are many other ways to do the same thing One of the tricks to free up your working memory is to calculate from left to right instead of right to left Try multiplying 73201×3 from left to right starting from 7×3 and ending with 1×3 You will find yourself calling out the answer before you even finish the whole problem You can use this trick to solve any math problem in the future But we have just scratched the surface There are many more tricks inside the book that make doing mental math as easy as reading a comic Here is a glimpse of what you will be able to master Mentally add large numbers Example Add 87395492 in your head in seconds Subtract numbers fast Example Mentally subtract 75204998 without writing anything down Multiplication tricks to multiply three digit numbers Example Multiply 323×123 in your head Square large numbers in seconds Example Calculate 64×64 faster than a calculator Mentally divide large numbers Example Divide 601324 by 73 entirely in your head Quickly check a calculation with 90% accuracy without re calculating Overcome math anxiety Cement your mental math skills with bonus weekly training This book only has the best techniques used by over 27 mental and Vedic math experts across the world The techniques in this book are so simple you will wonder why nobody taught you this before You will be able to master it even if you have failed math in school Imagine waking up tomorrow being able to do lightning fast math in your head Your family friends will look at you like you are some kind of a genius Since you do the calculations in your head you will acquire better mental habits in the process So you will not just look like a genius You will actually be one Buy Now To Become A Human Calculator Every minute you wait to buy this book is another minute you don't see the benefit of being good with math numbers Put the power of mental math to work in your life so you can quickly easily make math and numbers more useful develop better memory habits increase concentration develop new ways to think and do speed math entirely in your head faster than a calculator Get your copy today A MUST BUY for students of Vedic Mathematics GMAT GRE SAT Case Study Interview and Case Interview
