Kent Rasmussen, 2014-05-14 Praise for the previous edition RASD ALA Outstanding Reference Source 1996 Essential is the word for it British Cruisers of the Victorian Era Norman Friedman, 2012-10-29 Gradually evolving from the masted steam frigates of the mid nineteenth century the first modern cruiser is not easy to define but for the sake of this book the starting point is taken to be Iris and Mercury of 1875 They were the RN's first steel built warships were designed primarily to be steamed rather than sailed and formed the basis of a line of succeeding cruiser classes The story ends with the last armoured cruisers which were succeeded by the first battlecruisers originally called armoured cruisers and with the last Third Class Cruisers Topaze class all conceived before 1906 Coverage therefore dovetails precisely with Friedman's previous book on British cruisers although this one also includes the wartime experience of the earlier ships rn The two central themes are cruisers for the fleet and cruisers for overseas operations including but not limited to trade protection The distant waters aspect covers the belted cruisers which were nearly capital ships intended to deal with foreign second class battleships in the Far East The main enemies contemplated during this period were France and Russia and the book includes British assessments of their strength and intentions with judgements as to how accurate those assessments were rn As would be expected of Friedman the book is deeply researched original in its analysis and full of striking insights another major contribution to the history of British warships *The Mizo Discovery of the British Raj* Kyle Jackson, 2023-11-02 A history of Mizoram in Northeast India from the Indigenous perspectives of encounters with the British Empire from the 1890s to the 1920s **Contemporary British Poetry** James Acheson, Romana Huk, 1996-01-01 This collection of original essays focuses on new and continuing movements in British Poetry It offers a wide ranging look at feminist working class and other poets of diverse cultural backgrounds *Migrant City* Panikos Panayi, 2020-04-07 The first history of London to show how immigrants have built shaped and made a great success of the capital city London is now a global financial and multicultural hub in which over three hundred languages are spoken But the history of London has always been a history of immigration Panikos Panayi explores the rich and vibrant story of London from its founding two millennia ago by Roman invaders to Jewish and German immigrants in the Victorian period to the Windrush generation invited from Caribbean countries in the twentieth century Panayi shows how migration has been fundamental to London's economic social political and cultural development Migrant City sheds light on the various ways in which newcomers have shaped London life acting as cheap labour contributing to the success of its financial sector its curry houses and its football clubs London's economy has long been driven by migrants from earlier continental financiers and more recent European Union citizens Without immigration fueled by globalization Panayi argues London would not have become the world city it is today **British Journal of Dental Science**, 1902 An Introduction to British Clays, Shales, and Sands Alfred

Broadhead Searle,1912 Publishing the Woman Writer in England, 1670-1750 Leah Orr,2023-06-14 In the late seventeenth and eighteenth centuries the woman writer emerged as a category of authorship in England Publishing the Woman Writer in England 1670 1750 seeks to uncover how exactly this happened and the ways publishers tried to market a new kind of author to the public Based on a survey of nearly seven hundred works with female authors from this period this book contends that authorship was constructed not always by the author for market appeal that biography often supported an authorial persona rooted in the genre of the work and that authorship was a role rather than an identity Through an emphasis on paratexts including prefaces title pages portraits and biographical notes Leah Orr analyses the representation of women writers in this period of intense change to make two related arguments First women writers were represented in a variety of ways as publishers sought successful models for a new kind of writer in print Second a new approach is needed for studying early women writers and others who occupy gaps in the historical record This book shows that a study of the material contexts of printed books is one way to work with the evidence that survives It therefore begins with a very familiar kind of author centric literary history and deconstructs it to conclude with a reception centered history that takes a more encompassing view of authorship In addition to analysis of many little known and anonymous authors case studies include Aphra Behn Catharine Trotter Cockburn Laetitia Pilkington Marie Catherine d Aulnoy and Anne Dacier The Concise Oxford Dictionary of Current English Francis George Fowler,1919 **The Concise Oxford Dictionary of Current English** Henry Watson Fowler,Francis George Fowler,1917 The Concise Oxford Dictionary of Current English ,1912 The British Journal of Photography William Crookes,T. A. Malone,George Shadbolt,J. Traill Taylor,William Blanchard Bolton,Thomas Bedding,1917 **The British Military Revolution of the 19th Century** Daniel R. LeClair,2019-10-31 From the Crimean War through the Second Boer War the British Empire sought to solve the Great Gun Question to harness improvements to ordnance small arms explosives and mechanization made possible by the Industrial Revolution The British public played a surprising but overlooked role offering myriad suggestions for improvements to the civilian led War Office Meanwhile politicians and army leaders argued over control of the country s ground forces in a decades long struggle that did not end until reforms of 1904 put the military under the Secretary of State for War Following the debate in the press voters put pressure on both Parliament and the War Office to modernize ordnance and military administration The Great Gun Question was as much about weaponry as about who ultimately controlled military power Drawing on ordnance committee records and contemporary news reports this book fills a gap in the history of British military technology and army modernization prior to World War I **The Palgrave Handbook of Magical Realism in the Twenty-First Century** Richard Perez,Victoria A. Chevalier,2020-04-30 The Palgrave Handbook of Magical Realism in the Twenty First Century examines magical realism in literatures from around the globe Featuring twenty seven essays written by leading scholars this anthology argues that literary expressions of magical realism proliferate globally in the twenty first century due to travel and

migrations the shrinking of time and space and the growing encroachment of human life on nature In this global context magical realism addresses twenty first century politics aesthetics identity and social national formations where contact between and within cultures has exponentially increased altering how communities and nations imagine themselves This text assembles a group of critics throughout the world the Americas Europe Africa Asia the Middle East and Australia who employ multiple theoretical approaches to examine the different ways magical realism in literature has transitioned to a global practice thus signaling a new stage in the history and development of the genre
