Synthetic Birthstone Guide

Antoinette Matlins, Antonio C. Bonanno

Synthetic Birthstone Guide:

Consumers' Guide to Product Grades and Terms Timothy L. Gall, Susan B. Gall, 1993 Explains over 8 000 words grades and classifications used to describe the size age nature or quality of the products people use and buy every day Includes both voluntary standards and those regulated by the government **Jewelry & Gems The Buying Guide** Antoinette

Matlins, 2012-12-06 to this edition In working with my own clients to acquire gemstones and jewelry since this book was first published in 1984 they have pointed out that most people buy jewelry and not gemstones Because the book offers so much practical advice and money saving tips about buying jewelry they urged me to change the title So in this edition The Complete Guide to Buying Gems has been changed to Jewelry Gems The Buying Guide Consumer and professional response to the book has been very gratifying Almost 14 000 hardcover copies are in circulation We have received hundreds of letters phone calls and in person comments about the helpfulness and interesting information it provides We thank you for encouraging us to make the book more widely available by bringing out this softcover edition We have taken the opportunity of this softcover edition to update the price guides for diamonds and colored gemstones and in light of the increase in both the popularity and price of pearls to add a price guide for them in the Guide to Popular Gems and Their Prices Also we want to take this opportunity to comment further on gem investment taking into account major developments since the original manuscript was written in 1980 The Complete Idiot's Guide to Crystals Karen Ryan, 2010-07-06 Healing energy from

nature In The Complete Idiot's Guide to Crystals readers come to know crystals from their chemical composition and historic connections to the ways in which selecting preparing and using them can empower and enhance their lives when they are used in physical emotional and spiritual healing Includes instructions on preparing crystals for use cleaning charging activating and protecting them How to use the Five Master Healers clear quartz rose quartz amethyst smoky quartz and turquoise and other crystals to heal the body mind and spirit Techniques for healing sessions that anyone can easily follow

Jewelers' Buyers Guide, 1951 **Modern Jeweler's Consumer Guide to Colored Gemstones** David Federman, 2012-12-06 Since early 1989 a gem dealer I've known for years has been calling me every few weeks to brief me on mounting mayhem in Colombia's lucrative emerald market The troubling gist of these calls is always this There is a full

fledged turf war going on between that South American country's bustling drug and gem trades for control of its emerald export business. According to this dealer and several others anywhere from two to four thousand emerald industry people, mostly miners and dealers, have been murdered since 1980. No doubt the gem sector itself never gun shy has retaliated in full and in kind. After all, the two groups have banded together in an intermittent alliance against a common enemy: Communist guerillas. With results the CIA would envy. I mention this bloodshed because of something the gem dealer once said to me: I bet you never think of what a gem has to go through to get to a jewelry store. He's right. I tend to think of colored stones as things of beauty, not objects of gruesome power struggles between mining kingpins and drug lords. Can you blame me or anyone with insider knowledge if a gem sheds any connection with its past, once sculpted by a cutter into the glittering marvel we see in a jeweler's showcase. Like Odysseus listening to the sirens' song, we become victims of an aesthetics-induced amnesia.
