Han, WISCONSIN UNIV-MADISON MATHEMATICS RESEARCH CENTER., 1980 The paper deals with a system of linear inequalities in a finite dimensional space When the system is inconsistent we are interested in vectors that satisfy the system in a least squares sense We characterize such least squares solutions and propose a method to find one of these solutions It is shown that for any given system of linear inequalities and for any starting point the method can produce a solution in a finite number of iterations Computational results are very satisfactory in terms of accuracy and number of iterations Author *Systems of Linear Inequalities* Paul Baker Burcham, 1938 Linear Inequalities and related systems ,1959 *Solving a System of Linear Inequalities for Generating Test Data* Bo Einarsson, 1977 A simple inequality solver based on the simplex method for determining safe input data corresponding to execution of a certain path of a computer program is presented Special consideration is given the influence from rounding errors on the solution Author Partition regular systems of linear inequalities Meike Schröder, 1996 Systems of Linear Inequalities and Equations George L.
