

THE TRANSMISSION—The standard three-speed type of transmission is used in your Dodge car. Scientific engineering and the use of helical gears promote smooth, silent operation at any speed. Anti-friction bearings at all vital points make for exceptionally long life. The shifting mechanism—in addition to being simple and nearly fool-proof—is very easy to operate.

Under normal service, the only attention required by the transmission is the checking of the lubricant level and replacing of the lubricant according to the maintenance schedule on pages 18-19.

THE REAR AXLE—Quiet operation and riding comfort are provided for in your Dodge rear axle. First of all, the axle is of very substantial design and construction. The housing is built of heavy steel stampings welded together. Friction and wear are reduced to a minimum in the pinion and axle shafts through the use of roller bearings. The pinion and ring gears are of hypoid type—permitting lowering of the center of gravity and contributing to long life. The axle is secured to the frame through the rear springs, and these cushion the driving and braking loads for riding ease. The oil seals in the axle have proved most efficient in keeping the lubricant in, and dust or abrasive material out.

Little attention is required by the rear axle other than the lubrication recommended on page 21. It is important, however, that the quality and level of the lubricant be maintained at all times.

Do not carry the lubricant above the filler plug, do not lubricate the rear wheel bearings in excess of the recommended specifications. Excess lubricant at either point may work into the brakes and cause erratic brake operation.

A vent at the top of the housing releases any air pressure that may build up in the housing through expansion of the lubricant.

THE UNIVERSAL JOINTS—Boots protect the universal joints from dust and water. Inspect joints as specified in schedule on page 19. If boots are damaged, clean joint out thoroughly, relubricate and install new boots. Note: Never put more than $1\frac{1}{4}$ oz. of lubricant in a universal joint, as any excess lubricant will be forced into dust boot, causing an out-of-balance condition, which in turn will result in a distinct vibration. Your Dodge dealer should attend to this service.

T 38 Owners Manual

L Reisser

T 38 Owners Manual:

T-38 Talon Pilot's Flight Operating Instructions United States Air Force, 2009-02-01 Northrop's T 38 Talon was the world's first supersonic trainer aircraft and remains in service today in air forces worldwide. It entered service in 1961 and quickly set climb records earning it the nickname white rocket. Nearly 1200 Talons were produced before the last one rolled off the assembly line in 1972. Capable of a speed of Mach 1.3 and a climb rate approaching 34,000 feet per minute, the T 38's performance was sufficient to warrant service as the USAF Thunderbirds aircraft in the mid 1970s. Its primary role, however, was as a dedicated training and proficiency platform. More than 50,000 USAF, NASA, and NATO pilots have flown the Talon, a record that may never be matched. Originally printed by the U.S. Air Force and Northrop, this handbook for the T 38 provides a fascinating glimpse inside the cockpit of this famous aircraft. Originally classified restricted, the manual was recently declassified and is here reprinted in book form. *Civil Airworthiness Certification* Miguel Vasconcelos, United States Department of Transportation, Federal Aviation Administration, 2013-09-19 This publication provides safety information and guidance to those involved in the certification operation and maintenance of high performance former military aircraft to help assess and mitigate safety hazards and risk factors for the aircraft within the context provided by Title 49 United States Code 49 U.S.C. and Title 14 Code of Federal Regulations 14 CFR and associated FAA policies. Specific models include A 37 Dragonfly, A 4 Skyhawk, F 86 Sabre, F 100 Super Sabre, F 104 Starfighter, OV 1 Mohawk, T 2 Buckeye, T 33 Shooting Star, T 38 Talon, Alpha Jet, BAC 167 Strikemaster, Hawker Hunter, L 39 Albatros, MB 326, MB 339, ME 262, MiG 17, Fresco, MiG 21, Fishbed, MiG 23, Flogger, MiG 29, Fulcrum, S 211.
