Notes and Queries, 1903 **Ars musicae** Johannes de Grocheio, 2011-10-01 *Ars musicae* composed in Paris during the late thirteenth century reflects Johannes de Grocheio's awareness of the complexity of the task of describing music. As the editors note in their introduction, Grocheio is aware of the enormous range of types of music performed in different ways in different places. How can he impose order on this enormous subject matter? He decided to resolve this question by structuring his discussion around the practice of music that he observed in the city of Paris organized into three main branches: music of the people (*musica vulgaris*), composite or regular which they call measured music (*musica mensurata*) and ecclesiastical music (*musica ecclesiastica*) which he claims derives from the other two. AM 6 2 The originality of Grocheio's treatise has attracted considerable scholarly interest. It has long been recognized as a unique source of information about musical life in medieval Paris. Through his treatise, Grocheio enables a modern reader to become aware of the complex auditory environment of that city in the late thirteenth century as well as of its intellectual vitality at a particularly vibrant moment in its history.
