challenges trends and technologies effecting the overall utilization and management of information in modern organizations around the world Biochar for Environmental Management Dr. Johannes Lehmann, Stephen Joseph, 2009 Biochar is the

carbon rich product when biomass such as wood manure or crop residues is heated in a closed container with little or no available air It can be used to improve agriculture and the environment in several ways and its stability in soil and superior nutrient retention properties make it an ideal soil amendment to increase crop yields In addition to this biochar sequestration in combination with sustainable biomass production can be carbon negative and therefore used to actively remove carbon dioxide from the atmosphere with major implications for mitigation of climate change Biochar production can also be

combined with bioenergy production through the use of the gases that are given off in the pyrolysis process This book is the first to synthesize the expanding research literature on this topic The book s interdisciplinary approach which covers engineering environmental sciences agricultural sciences economics and policy is a vital tool at this stage of biochar technology development This comprehensive overview of current knowledge will be of interest to advanced students researchers and professionals in a wide range of disciplines Provided by publisher *Issues in Immunology Research: 2013 Edition* ,2013-05-01 *Issues in Immunology Research 2013 Edition* is a ScholarlyEditions book that delivers timely authoritative and comprehensive information about Immunochemistry The editors have built *Issues in Immunology Research 2013 Edition* on the vast information databases of ScholarlyNews You can expect the information about Immunochemistry in this book to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant The content of *Issues in Immunology Research 2013 Edition* has been produced by the world s leading scientists engineers analysts research institutions and companies All of the content is from peer reviewed sources and all of it is written assembled and edited by the editors at ScholarlyEditions and available exclusively from us You now have a source you can cite with authority confidence and credibility More information is available at <http://www.ScholarlyEditions.com>
