computer literacy text geared toward nurses and other healthcare students *The HM Learning and Study Skills Program* Judy Tilton Brunner, Matthew S. Hudson, 2016-10-11 Level III Grades 11-13 The HM Learning and Study Skills Program Level III was designed to provide an introduction to learning and study skills for high school juniors and seniors and beginning college students through a series of activity-oriented units. It is structured on the assumption that an activity-oriented lesson is the most effective instructional strategy for the teaching of study skills; more succinctly, that learning by doing is the best way to study. Smart learning and study skills are important for learning. They are methods and ways of doing things that help make learning easier. Understanding how to study can also facilitate learning by assisting students as they complete assignments correctly and efficiently during a specified period of time. Just like any other skill, knowing how to learn and study proficiently must be learned and practiced over time. The Program has been designed to help students learn more efficiently and effectively.

The Psychology Student Writer's Manual Jill Mackay Scott, 2002 This second edition is designed to help students improve writing and learn psychology. It offers practical information on writing style for psychology, conducting research in psychology, and writing assignments, as well as library research and special challenges and opportunities of distance learning.
