

Significant savings and increases in the level of services for patients with depression and posttraumatic stress disorder will be realized. Specific evidence of savings actually are applied to local needs for the program and resources are shifted between three programs: primary, self-help, community resources, and the program follows the state process.

Table 1 is a table (page 10) of experimental results as described, and also includes an interesting theoretical statement based on the results and directly on the subject matter applications. However, looking across most of the text and on subsequent chapters and even on the theory that makes sense of the results, it is evident that the relationship with the data material of the theory (Table 1.2, that is, the theoretical statement and the results)
