Decolonisation after Democracy Laurence Piper,2020-05-21 Decolonisation after Democracy addresses the provocative idea that we need to rid higher education of lingering forms of colonial knowledge This matters because in the colonial era much knowledge was put to the service of subjugating indigenous peoples and the assumptions from this era may linger into the present Examples of deep rooted and foundational forms of knowledge that carry colonial traits are normative binaries such as civilised and backward modern and traditional and rational and superstitious In addition some accounts of positive values like freedom equality justice and democracy may hide the assumption that the western experience is the norm from which other kinds are rendered imitations deviations or pathologies In this collection some of South Africa s leading political scientists and academics engage with the challenge of decolonising knowledge in the research and teaching of politics It includes new insights about the state international relations clientelism statesociety relations and land reform and introduces new ways to engage the colonial library curriculum reform and the marginality of historically black institutions Finally the contributors deal with the decolonial challenge posed by the FeesMustFall student movements reflecting on issues of revolutionary politics and gender and sexual violence This book was originally published as a special issue of Politikon

Learning for a Better Future Suzanne Hattingh,2021-12-31 Various international scholars and associates of the PASCAL Place Social Capital and Learning Regions International Observatory Africa hub under the auspices of the Centre for Local Economic Development CENLED based at the University of Johannesburg UJ have contributed chapters in this scholarly book The book aims to demonstrate how a combination of globalisation pandemics and the impact of innovation and technologies are driving towards a world in which traditional ideas are being challenged The book carries forward a dual context and relevance to South African social educational economic and cultural development and the broader international context and action directed at how lifelong learning for all can be fostered in communities as a foundation for a just human centred sustainable world The distinctive contribution of this book

to the production of a local body of knowledge lies in the symbiotic relationships between these objectives so that South Africa could serve as a test case in working towards approaches that have a wider international significance

BRICS and Resistance in Africa Justin van der Merwe,Patrick

Bond,Nicole Dodd,2019-10-15 Though initially considered a welcome counterweight to Western interest across Africa the BRICS are increasingly being viewed as another example of foreign interference and exploitation BRICS and Resistance in Africa explores the varied forms of African resistance being developed in response to the growing influence of the BRICS Its case studies cover such instances as the opposition to China s One Belt One Road initiative in East Africa resistance to the BRICS oil activities in the Niger Delta and the role of the BRICS in Zimbabwe s political transition The contributors expose the contradictions between the group s rhetoric and its real impact as well as the complicity of local elites in serving as

proxies for the BRICS nations By challenging and expanding the debates surrounding BRICS involvement in Africa this collection offers new insight into resistance to globalization in the global South **Forging Solidarity** Astrid von Kotze, Shirley Walters, 2017-04-13 Animating this book is a twofold question In what ways are adult and popular educators responding to various harsh economic political cultural and environmental conditions In doing so are they planting seeds of hope for and imaginings of alternative futures which can connect individuals and communities locally and globally to achieve economic ecological and social justice The book illustrates how transformative politics of solidarity often involve actors across vastly different backgrounds Solidarity is therefore a political relationship that is forged through particular struggles situated in place and time across power differentials The authors put popular education to work by describing and analysing their strategies and approaches They do so using accessible language and engaging styles Popular education is a medium for dreaming for imagining other futures It is also essential for countering the wilful spreading of fake news and propagation of ignorance Pedagogies of solidarity are necessary to building connections amongst people at a time when competitive individualism and alienation are rampant Forging solidarity with and amongst communities is a means towards that end and indeed an end in itself Corporate mines and agribusiness poison the water we drink the air we breathe and the food we eat Together with their political proxies they destroy the earth and her peoples too many are killed because of their military economic religious and information wars How do we stand up for ourselves and the earth that nourishes us against this global system Forging Solidarity shares inspiring stories that feed our deep connection and power Prege Govender Author of Love and Courage A Story of Insubordination Forging Solidarity is a critical and timely collective intervention that ponders prods pokes and plays in the most generative ways In so doing it invites us to continue deepening our engagements with questions of responsibility and justice in relation to education everywhere Richa Nagar author of Muddying the Waters Co authoring Feminisms across Scholarship and Activism This book inspires people to realize that not fighting against socio economic injustices is to side with oppressors Ntombi Nyathi Programme Director of Training for Transformation

Methods for Information Science Research Ngulube, Patrick, 2019-12-13 In today's globalized world viable and reliable research is fundamental for the development of information. Innovative methods of research have begun to shed light on notable issues and concerns that affect the advancement of knowledge within information science. Building on previous literature and exploring these new research techniques are necessary to understand the future of information and knowledge. The Handbook of Research on Connecting Research Methods for Information Science Research is a collection of innovative research on the methods and application of study methods within library and information science. While highlighting topics including data management, philosophical foundations, and quantitative methodology, this book is ideally designed for librarians, information science professionals, policymakers, advanced level students, researchers, and academicians seeking current research on transformative methods of research within information science.

Mergers and Alliances in Higher Education Adrian Curaj, Luke Georghiou, Jennifer Cassingena Harper, Eva Egron-Polak, 2015-03-31 This volume casts light on mergers and alliances in higher education by examining developments of this type in different countries. It combines the direct experiences of those at the heart of such transformations: university leaders and senior officials responsible for higher education policy, with expert analysts of the systems concerned. Higher education in Europe faces a series of major challenges. The economic crisis has accelerated expectations of an increased role in addressing economic and societal challenges while at the same time putting pressure on available finances. Broader trends such as shifting student demographics and expectations, globalisation and mobility, and new ways of working with business have contributed to these increased pressures. In the light of these trends, there have been moves both from national or regional agencies and from individual institutions to respond by combining resources either through collaborative arrangements or more fundamentally through mergers between two or more universities. After an introductory chapter by the editors which establishes the context for mergers and alliances, the book falls into two main parts. Part 1 takes a national or regional perspective to give some sense of the historical context, the wider drivers, and the importance of these developments in these cases. Included are both systemic accounts for countries as France, Sweden, Romania, Russia, Wales, and England, and specific cross-cutting initiatives including a major facility at Magurele in Romania and a Spanish programme for promoting international campuses of excellence. Part 2 is built from specific cases of universities either in mergers or alliances, with examples from different countries such as France, UK, Romania, Spain, Germany, Denmark, Finland, Switzerland. A concluding chapter by the editors assesses these experiences and indicates the implications and future needs for understanding in this domain.

Recent Development in Energy Conversion Systems Sunday Olayinka Oyedepo, Fidelis Ibiang Abam, Olusegun David Samuel, Oluseyi Olanrewaju Ajayi, Abimbola Patricia Popoola, Diana-Andra Borca-Tasciuc, 2024-03-15 In this industrial and technological age, energy plays a principal role in sustainable development. This is connected to issues regarding availability, production processes, utilization, and environmental impact. Due to the increased rate of population growth, the energy demand in the entire world is getting to

the level that it may not be sustained in the nearest future if drastic action is not taken to address the situation especially from research and development perspectives None of the millennium development goals MDGs can be completed without considerable improvements in the quality and quantity of energy services in developing countries according to the United Nations Development Programme UNDP Based on this fact UNDP is making efforts especially in developing countries to ensure that people have access to sustainable sources of clean reliable and affordable energy since every aspect of human development is highly impacted by this vital resource
