1908 2000 in his seminal rejection of this distinction Sander Verhaegh here offers a comprehensive study of Quine's groundbreaking naturalism Building on Quine's published corpus as well as a wealth of unpublished letters notes lectures papers proposals and annotations from the Quine archives Verhaegh aims to reconstruct both the nature and the development of his naturalism As such Working from Within aims to contribute to the rapidly developing historiography of analytic philosophy and to provide a better historically informed understanding of what is philosophically at stake in the contemporary naturalistic turn Transcriptions of five unpublished papers letters and notes are included in the appendix
