Sport and Architecture Benjamin S. Flowers, 2017-05-08 Sport and architecture are two elements of contemporary life that have a broad and profound impact on the world around us The role architecture plays in shaping buildings and societies has occupied historians for centuries Likewise the cultural economic and political importance of sport is the subject of sustained academic inquiry When sport and architecture converge as in the 2012 London Olympics or the 2014 World Cup in Brazil then the impact of these two forms of social activity is redoubled This book presents a new and dynamic study of the complex relationship between sport and architecture It explores the history of sport architecture and examines the buildings and events that create sites where sport and architecture converge in particularly telling ways Its chapters discuss the following topics sport architecture and urban redevelopment sport architecture and technology sport architecture and nationalism sport architecture as social activism sport architecture and global capitalism By considering the importance of architectural form alongside these key themes this book represents a landmark study for anybody interested in the social and cultural significance of architecture or sport

The Routledge Companion to Media and the City Erica Stein, Germaine R. Halegoua, Brendan Kredell, 2022-07-29 Bringing together leading scholars from around the world and across scholarly disciplines this collection of 32 original chapters provides a comprehensive exploration of the relationships between cities and media The volume showcases diverse methods for studying media and the city and posits media urbanism as an approach to the co construction and interactions among media texts and technologies media users media industries media histories and urban space Chapters serve as a guide to humanities based ways of studying urban imaginaries infrastructures and architectures development and redevelopment and strategies and tactics as well as a provocation toward new lines of inquiry that further explore the dense interconnectedness of media and cities Structured thematically the

chapters are organized into four distinct sections introduced with editorial commentary that places the chapters into conversation with each other and frames them in relation to an overarching question problem or method Part I Imaginaries and cityscapes focuses on screen representations and mediated experiences of urban space produced and consumed by various actors Part II Architectures and infrastructures highlights the different ways in which built environments and socio technical substrates that sustain differential mobilities urban rhythms and systems of circulation and exchange are intertwined with various forms of media and mediation Part III Development and redevelopment examines efforts by urban planners and designers municipal governments and community organizers to utilize media forms to imagine and shape the construction of the space and meaning of the city finally Part IV Strategies and tactics uses categories for practices of control and resistance to investigate media and struggles for power within urban environments from surveillance and place branding to activist media and the right to the city The Routledge Companion to Media and the City provides a definitive reference for both scholars and students of urban cultures and media within the humanities *Stadium City* Helen Morgan Parmett,2025-09-23
