Virtual Pig Dissection E.W. Fleck, 2006 Dissection can be an aspect of scientific education that can make some parties queasy but it is a fascinating way to learn more about the different body systems their operations and basic animal anatomy Entering the world of pig dissection can make budding scientists even more squeamish but they need never fear as this site allows these individuals the opportunity to engage in a bit of virtual pig dissection Originally created by Professor Earl W Fleck of Whitman College's biology department the site lets users go inside the pig to learn about its various systems via a set of high quality color photographs which can be viewed at different angles and perspectives Of course what would a lab be without a quiz Rounding out the site visitors can take short quizzes on the pig's anatomy and such From The Scout Report Copyright Internet Scout Project 1994 2006 <http://scout.wisc.edu> Anthony's Textbook of Anatomy & Physiology - E-Book

Kevin T. Patton, Gary A. Thibodeau, 2018-03-05 Just because A P is complicated doesn't mean learning it has to be. Anthony's Textbook of Anatomy Physiology 21st Edition uses reader friendly writing, visually engaging content, and a wide range of teaching and learning support to ensure classroom success. Focusing on the unifying themes of structure and function and homeostasis, author Kevin Patton uses a very conversational and easy-to-follow narrative to guide you through difficult A P material. The new edition of this two-semester text has been updated to ensure you have a better understanding of how the entire body works together. In addition, you can connect with the textbook through a number of free electronic resources, including an electronic coloring book, 3D animations, and more. Conversational writing style at a 11.7 reading level, the lowest available for 2-semester A P books, makes text engaging and easy to understand. Updated Genetics chapter includes important advancements in that field. Updated content on osmosis revised to make it more simple and accurate. More than 1,400 full-color photographs and drawings illustrate the most current scientific knowledge and bring difficult concepts to life. Includes a unique color key to show color scheme that is used consistently throughout the book: for example, bones are off-white, enzymes are lime green, nucleus is purple. UNIQUE Consistent unifying themes such as the Big Picture and Cycle of Life sections in each chapter help you comprehend the interrelation of body systems and how the structure and function of these change in relation to age and development. Numerous feature boxes including Language of Science and Language of Medicine, Mechanisms of Disease, Health Matters, Diagnostic Study, FYI, Sport and Fitness, and Career Choices provide interesting and important sidebars to the main content. Quick Check Questions reinforce learning by prompting you to review what you've just read. Chapter outlines, chapter objectives, and study tips begin each chapter. NEW Integrative Unit Closers tie together content with integrative critical thinking questions. NEW Additional and updated Connect It boxes, renamed from A P Connect, provide relevant bonus information for you to explore. NEW All new animations in the text and on Evolve companion site help you understand the reasoning and knowledge behind each answer and assist with recalling correct answers.

Virtual Fetal Pig Dissection as an Agent of Knowledge Acquisition and Attitudinal Change in Female High School Students, Rebecca S. Maloney, 2002. One way to determine if all students can learn through the use of computers is to introduce a lesson taught completely via computers and compare the results with those gained when the same lesson is taught in a traditional manner. This study attempted to determine if a virtual fetal pig dissection can be used as a viable alternative for an actual dissection for females enrolled in high school biology classes by comparing the knowledge acquisition and attitudinal change between the experimental virtual dissection and control actual dissection groups. Two hundred and twenty-four students enrolled in biology classes in a suburban all-girl parochial high school participated in this study. Female students in an all-girl high school were chosen because research shows differences in science competency and

computer usage between the genders that may mask the performance of females on computer based tasks in a science laboratory exercise Students who completed the virtual dissection scored significantly higher on practical and objective tests that were used to measure knowledge acquisition Attitudinal change was measured by examining the students attitudes toward dissections computer usage in the classroom and toward biology both before and after the dissections using pre and post surveys Significant results in positive gain scores were found in the virtual dissection group2s attitude toward dissections and their negative gain score toward virtual dissections Attitudinal changes toward computers and biology were not significant A purposefully selected sample of the students were interviewed in addition to gathering a sample of the students2 daily dissection journals as data highlighting their thoughts and feelings about their dissection experience Further research is suggested to determine if a virtual laboratory experience can be a substitute for actual dissections or may serve as an enhancement to an actual dissection
