Best career guide (why don't 95% of people achieve success) Mr. Hari, 2025-10-01 Today's world is full of competition and achieving success is no longer as easy as young people think. I believe there's no shortage of knowledge in this modern age. Our country's youth do set their goals from various sources. But the main problem is that they can't decide whether their chosen goal is truly worthy of them. This inability to choose the right goal often creates obstacles to their success: sometimes financial problems, sometimes family responsibilities. This makes it difficult for them to even make a living, let alone succeed. You'll find many examples of this around you. This book can be your first step to success. It contains a total of eight chapters. Each chapter tests your goals through a question which makes this book different from other books in the world. This book will fully assist you in setting a correct and clear goal and will save you from the mistakes that 95% of people in the world often make. 95%? If you feel this book has truly helped you, please share it with your younger or older brother or sister so they too can avoid choosing the wrong path. Thank you how to set your GOAL. Career guidance book Mr. Hariverma. Best mindset book. Best career guide. Self-help books. **Army Occupational Survey Program Questionnaire Administration**, 1983
