humanity subservient unable to reach their full potential as divine Avatars Of God Journeying to many countries globally the book takes an historically hard long look at religious beLIEfs and how one person s opinion was over time gradually adopted as a truth for all of humanity to live by and how that beLIEf has effected the evolutionarily process The beLIEf systems irrevocably have given rise to all wars past and present The narrative in the book expresses how horrific ravaging and devastating wars have a direct adverse effect on climate change Direct dialogue suggests the reader look at the political leadership and financial systems globally Are they in their current form able to substantially sustain ethnic equality in an inclusive United World with No Boundaries The Avatar Of God is a compelling thought provoking handbook for evolving humans in the 21st century A Technological History of Motion Pictures and Television Raymond Fielding,1967
