Mathematica **How Change Happens** Roman Krznaric, 2007 The author argues that current development thinking uses only a narrow range of approaches to change and the result is that most development strategies are limited excessively reformist and insensitive to underlying power and inequality and largely ignore environmental issues that confront our societies and planet

Institutional Change and Globalization John L. Campbell, 2020-07-21 This book is about institutional change how to recognize it when it occurs and the mechanisms that cause it to happen It is the first book to identify problems with the new institutional analysis which has emerged as one of the dominant approaches to the study of organizations economic and political sociology comparative political economy politics and international relations The book confronts several important problems in institutional analysis and offers conceptual methodological and theoretical tools for resolving them It argues that the paradigms of institutional analysis rational choice organizational and historical institutionalism share a set of common analytic problems Chief among them failure to define clearly what institutional change is failure to specify the mechanisms responsible for institutional change and failure to explain adequately how ideas other than self interests affect institutional change To demonstrate the utility of his tools for resolving the problems of institutional analysis Campbell applies them to the phenomenon of globalization In doing so he not only corrects serious misunderstandings about globalization but also develops a new theory of institutional change This book advances the new institutional analysis by showing how the different paradigms can benefit from constructive dialogue and cross fertilization
