Therapeutic Reasoning in Occupational Therapy - E-Book Jane Clifford O'Brien, Mary Beth Patnaude, Teressa Garcia Reidy, 2021-12-24 Build the clinical reasoning skills you need to make sound decisions in OT practice. Therapeutic Reasoning in Occupational Therapy: How to Develop Critical Thinking for Practice uses practical learning activities, worksheets, and realistic cases to help you master clinical reasoning and critical thinking concepts. Video clips on the Evolve website demonstrate therapeutic reasoning and show the diverse perspectives of U.S. and international contributors. Written by OT experts Jane Clifford O'Brien, Mary Elizabeth Patnaude, and Teressa Garcia Reidy, this how-to workbook makes it easier to apply clinical reasoning in a variety of practice settings. Dynamic interactive approach reinforces your understanding with learning activities in each chapter. Case studies and experiential learning activities flow from simple to complex and represent occupational therapy across the lifespan. AOTA's Occupational Therapy Practice Framework 4th Edition and current OT practice are reflected throughout the book. Practical learning activities and templates are clinically relevant and designed to support reasoning in a variety of practice settings. Video clips on the Evolve website are contributed by practitioners, educators, and students reinforcing content and showing how therapeutic reasoning applies to real world cases. Worksheets and/or templates are included in each chapter to enhance learning and for use in practice. Assessments in each chapter measure therapeutic reasoning outcomes. Student and practitioner resources on Evolve include printable PDFs of the in-text worksheets, video clips, additional case examples, templates for assignments, exemplars, and reflective activities.

Solution-Focused Play Therapy Elizabeth Kjellstrand Hartwig, 2020-11-16 Solution Focused Play Therapy is an essential text that blends the process of play therapy with solution focused therapy. With a focus on child strengths and resources, this book identifies key concepts and principles in solution focused play therapy (SFPT). The author provides neurobiological and developmental support for SFPT and guidance on how practitioners can transition from using a non-directive approach to a more directive and activity-based approach based on the developmental needs of the child. Chapters describe the 12 basic skills needed for employing this approach with children of all ages and their families. Harnessing a strengths-oriented approach, the author presents expressive ways to use key SFPT techniques including the miracle question, scaling, finding exceptions, and end of session feedback. Clinicians will come away from the book with a suite of interventions, strategies, handouts, and forms that can be employed with children of all ages and their families, from strength-based assessment and treatment planning to the final celebration session.
