Becoming a certified middle school math teacher and high school math teacher in Texas means first passing the TExES Math 4 8 115 teacher certification test for middle school teachers or the TExES Math 7 12 235 teacher certification test for high school teachers. This professional teacher certification test is required for all teachers who want to teach math in a Texas middle or high school. Covering each test's six domains and individual competencies with in-depth subject reviews, this test prep book also includes two model practice tests with answers and explanations for the Math 4 8 and two model practice tests with answers and explanations for the Math 7 12. Answer explanations detail why correct answers are correct as well as what makes incorrect answer choices incorrect. **Homework Helpers: Pre-Calculus** Denise Szecsei, 2025-09-12. This title in the Homework Helpers series will reinforce mathematical foundations and bolster students' confidence in pre-calculus. The concepts are explained in everyday language before the examples are worked. Good habits such as checking your answers after every problem are reinforced. There are practice problems throughout the book, and the answers to all of the practice problems are included. The problems are solved clearly and systematically with step-by-step instructions provided. Particular attention is placed on topics that students traditionally struggle with the most. While this book could be used to supplement a standard pre-calculus textbook, it could also be used by college students or adult learners to refresh long-forgotten concepts and skills. **Homework Helpers: Pre-Calculus** is a straightforward and understandable introduction to differential calculus and its applications. It covers all of the topics in a typical Calculus class, including Linear functions, Polynomials, Rational functions, Exponential functions, Logarithmic functions, and Systems of equations. This book also contains a review of the pre-calculus concepts that form the foundation on which calculus is built. *Precalculus* Gregory Buthusiem, Gabor Toth, 2020.
