P.'s Weekly* ,1911 **Teachers, Ideology and Control** Gerald Grace, Professor Gerald Grace, 2012 Teachers of the urban working class especially in inner city areas have always been regarded as strategic agents in processes of social and cultural formation In the Victorian era seen as The Teachers of the People Pioneers of Civilization and Preachers of Culture their role in gentling and controlling the urban masses was crucial They have always been at the centre of confrontation and struggle in a classroom sense in a cultural sense and in a socio political sense In contemporary inner city schools such confrontation and struggle remain a reality Teachers Ideology and Control is one of the first attempts to examine this important social and occupational group by locating contemporary sociological research in an historical framework As such it will be of interest not only to students of sociology and education especially urban education but also to social historians Its relevance to those who either administer or teach in urban schools will be clear The author shows the ways in which contemporary inner city

schools are caught up in an ideological struggle in education He explore the nature of constraint and control in urban education with reference to existing constructs of the good teacher the demands of the teacher s work situation and the reality of autonomy He suggests that viewed historically the relative autonomy of teachers has increased as a result largely of socio political and institutional crises At the same time however there have been important changes in the modality of social control changes from more explicit to more implicit features What it is to be a good teacher the effects of day to day immersion in school life and the ideology of professionalism these are all seen to be important constituents of a network of implicit control in contemporary education

Energy Tapping for Trauma Fred Gallo,2007-08-01 The book Energy Tapping was a joint development of Fred Gallo and Harry Vincenzi Any statements to the contrary in print or on the web are false Energy psychology is a scientifically validated body of research and core set of treatment techniques that conceptualizes thoughts feelings emotions and other psychological phenomena as manifestations of energy working though the system of the human body If some psychological phenomenon is causing pain distress or a lack of function to an individual the somatic techniques of energy psychology work to disrupt the flow of energy causing that phenomenon One of the more common techniques in the energy psychology repertoire is called energy tapping a practice similar to acupuncture that involves manipulating and tapping certain points along the body s energy meridians to influence psychological events In

this new book author Fred Gallo applies energy psychology techniques specifically to recovering from acute trauma and post traumatic stress symptoms Some techniques in this book are adapted from Energy Tapping by Fred Gallo and Harry Vincenzi Energy Tapping for Trauma offers a concise overview of how trauma affects us and why certain aspects of traumatic experience can linger as post traumatic stress The book adapts energy psychology techniques into simple effective strategies for short circuiting the emotional problems associated with trauma Throughout the book advocates for a balanced and sensible whole person approach to dealing with and recovering from a traumatic event For more information about Energy Tapping please visit the authors Harry Vincenzi www.energytapping.org Fred Gallo www.energypsych.com Microsoft Encarta College Dictionary Anne H.
