Literary Research and Postcolonial Literatures in English H. Faye Christenberry,Angela Courtney,Liorah Golomb,Melissa S. Van Vuuren,2012-08-08 Postcolonial literatures can be defined as the body of creative work written by authors whose lands were formerly subjugated to colonial rule In previous volumes of this series the research literature of former British colonies Australia Canada Ireland and New Zealand have been addressed This volume offers guidance for those researching the postcolonial literature of the former British colonies in Africa the Caribbean and South Asia Among the forty nations represented in this volume are South Africa India Pakistan Ghana Jamaica Swaziland Belize and Namibia With the exception of South Africa which formed the Union of South Africa in 1910 this guide picks up its coverage in 1947 when both India and Pakistan gained their independence The literature created by writers from these nations represents the diverse experiences in the postcolonial condition and are the subject of this book The volume provides best practice suggestions for the research process and discusses how to take advantage of primary text resources in a variety of formats both digital and paper based bibliographies indexes research guides archives special collections and microforms A Nimble Arc Emilie Boone,2023-08-28 While James Van Der Zee is widely known and praised for his studio portraits from the Harlem Renaissance era much of the diversity and expansive reach of his work has been overlooked From the major role his studio played for decades photographing ordinary people and events in the Harlem community to the inclusion of his photographs in the landmark Harlem on My Mind exhibition at the Metropolitan Museum of Art in 1969 Van Der Zee was a foundational Black photographer whose work illustrates the shifting ways photography serves as a constitutive force within Black life In A Nimble Arc Emilie Boone considers Van Der Zee s photographic work over the course of the twentieth century showing how it foregrounded aspects of Black daily life in the United States and in the larger African diaspora Boone argues that Van Der Zee s work exists at the crossroads of art and the vernacular challenging the distinction between canonical art photographs and the kind of output common to commercial photography studios Boone s account recasts our understanding not only of this celebrated figure but of photography within the arc of quotidian Black life *Great Puzzles from the Bible* Timothy E. The True Story of Six Months from Courthouse to County Jail to State Prison

Jack Sterns, 2022-05-10 The Statesville Prison experience will pull you right in if not already. It was surreal being a White male in his forties locked up in one of the most horrific prisons in the country, Statesville Penitentiary. After another blink of an eye, he's transferred to minimum security East Moline Illinois Prison. The bus ride experience is straight out of Hollywood except it's real. His time spent in sweet Moline doesn't last long as expected due to some trouble inside. The time he spends in segregation is brutally realistic and in your face. After a month in seg, he gets to take another bus ride to Hillsboro medium maximum security prison for the remainder of the six-month journey. Any trouble there and super maximum security prison would be next. A can't put down read that drags you right in. You can't wait to turn the pages in *The Story of Six Months from Courthouse to County Jail to State Prison*.

Conversation in World Englishes

Theresa Neumaier, 2023-04-06 Turn taking is a fascinating feature of conversational interaction due to its systematic and ordered nature. However, research has so far focused mainly on American and British conversations, with other varieties of English receiving much less attention. This pioneering book addresses this gap by exploring turn taking patterns and cultural variation in Southeast Asian and Caribbean English. Bringing together research from the fields of Conversation Analysis and World Englishes for the first time, Neumaier conducts an empirical study based on authentic audio data of interactions in these global varieties of English and demonstrates that conversational strategies differ between speaker groups with different cultural backgrounds. Shedding new light on the impact of cultural and sociolinguistic factors on conversational patterns, it is essential reading for advanced students and scholars interested in language variation and social interaction, as well as those working in the fields of Conversation Analysis, Interactional Linguistics, and World Englishes.

Sound Patterns in Interaction

Elizabeth Couper-Kuhlen, Cecilia E. Ford, 2004 This collection of original papers by eminent phoneticians, linguists, and sociologists offers the most recent findings on phonetic design in interactional discourse available in an edited collection. The chapters examine the organization of phonetic detail in relation to social actions in talk in interaction, based on data drawn from diverse languages: Japanese, English, Finnish, and German, as well as from diverse speakers: children, fluent adults, and adults with language loss. Because similar methodology is deployed for the investigation of similar conversational tasks in different languages, the collection paves the way towards a cross-linguistic phonology for conversation. The studies reported in the volume make it clear that language-specific constraints are at work in determining exactly which phonetic and prosodic resources are deployed for a given purpose and how they articulate with grammar in different cultures and speech communities.
