genius Lee Child DI Rebus is buried under a pile of paperwork but an escalating dispute between the upstart Tommy Telford and Big Ger Cafferty's gang gives Rebus an escape clause Telford is known to have close links with a Chechen gangster bringing refugees into Britain as prostitutes When Rebus takes under his wing a distraught Bosnian call girl it gives him a personal reason to make sure Telford goes back to Paisley and pronto Then Rebus's daughter is the victim of an all too professional hit and run and Rebus knows that there is now nothing he won't do to bring down prime suspect Tommy Telford even if it means cutting a deal with the devil *Lazarus: X+66 #6 (Of 6)* Eric Trautmann, 2018-02-14 MINISERIES FINALE ONCE UPON A TIME He is named the Zmey called the Dragon and the Beast He wears the bodies of his enemies into battle and has committed atrocities beyond description Of all the Families it is the Vassalovka Lazarus who has proven himself Forever Carlyle's greatest foe This is the story of the Dragon Art by TRISTAN T Rex JONES Aliens Defiance Halo Rise of Atriox Mad Max Fury Road story by RUCKA and TRAUTMANN *Subcreation: Fictional-World Construction from J.R.R. Tolkien to Terry Pratchett and Tad Williams* Stefanie Schult, 2017-01-26 The doctoral thesis argues that the term Subcreation with its revised and broadened definition in part differing from J R R Tolkien's original term sub creation may be used for the discussion of the making of fictional worlds in literary discourse The successful conception of a fictional world depends on the reader's willing suspension of disbelief This depends both on the author and his skilled composition of the world and all its aspects as well as on the reader's acceptance of this invented fictional world The author needs to create a narrative with an inner consistency which is crucial to achieving the effect of the reader's immersion in the fictional world The fundamental aspects that an author needs to realize to achieve successful Subcreation have been structured into and analysed in four categories Language and Linguistic Variation Physiopoeia Anthropoeia and Mythopoeia Furthermore this thesis shows that as contemporary examples of fantastic literature both Tad Williams's and Terry Pratchett's fictional worlds are successfully created through the realization of these aspects of Subcreation Apart from commenting on the success of the subcreative process this thesis also remarks upon the cultural influences both authors include in their writings While both may be considered Anglophone in a general categorization Pratchett's Discworld retains a feeling of Britishness that is not to be found in Williams's Otherland The thesis proposes several approaches to Subcreation that may be studied subsequently So for example it may be possible to determine the success of an author's Subcreation by collecting empirical data Apart from literary works this field of studies may also include other media On the Facilitation of the Academy Elias Westergaard, Joachim S. Wiewiura, 2015-03-17 The academy is not restricted to the architectural limits of the university but a broader conception of education that through its social dissemination ought to be continually shaped in relation to academic practice thinking and living Educational institutions are not solely modern providers of a pertinent workforce but foremost communities of thought with cultural political and social importance On the Facilitation of the Academy is thus concerned with educational issues that cohere but also quarrels with the university institution today as the highest institutionalised

place for learning The contributors in this volume consider practices of learning teaching and knowledge acquisition in academic environments It challenges educational issues in relation to conversation discourse and tradition as well as contains contributions on threshold concepts knowledge production and dangerous thinking Belonging to a variety of academic orientations philosophy educational theory psychoanalysis communication studies the authors in this volume offer different takes but share similar features and aspects on the worries that should occupy academe today *Eric Terry*
