Henderson,2008-07-02 Since the celebration of his centennial in 1974 Charles Ives has become an iconic figure in the history of music his name and compositions are widely recognized and his influence has been felt throughout the world One of the most striking features of Ives s music is his use of the borrowed melodies that pervade his scores Ives drew extensively from a large historical repertoire some of it little known today including hymns military and patriotic music college and popular songs instrumental music and classical music models By cataloging these sources and including musical examples of their incorporation into Ives s music Clayton W Henderson provides important insights into the composer s body of work *The Spectator* ,1856 A weekly review of politics literature theology and art *The academy* ,1875 **The Discovery of the Ark of the Covenant** Alan Wilson,Barum Blackett,2007-08-29 British history records that there were tow major migrations form the near east into Britain in antiquity One was the fleet migration form Syria led by Albyne around 1560 BC and the other was the second fleet migration from the Trojan Dardanelles areas in Western Turkey led by Brutus around 504 BC Ancient alphabet inscriptions and other tangible and written records show that the second migration was that of the Ten Tribes of Israel The same ancient Alphabet is found all the way along the British migration routes form Palestine to Assyria through Asia Minor to the Aegean and to Etruscan Italy and Rhaetian Switzerland In Britain the Ten Tribes were known as the Khumry This research began in 1976 some 31 years ago and it has met with nothing but opposition and obstruction Around 1360 BC Moses has the fabulous box called the Ark of the Covenant made This holy box was the national talisman of the Hebrew nation It was revered as the place of the presence of the god Yahweh and the most holy thing belonging to the Hebrew nation Aeries of events that included the Ark being seen as an invincible means of military success and in one disaster being captured by the Philistines ended when King David placed the Ark in the care of the family of Obed Edom and he took the Ark to Jerusalem around 975 BC along with the family of Obed Edom The next King was Solomon and he built a celebrated temple in Jerusalem to house the Ark where annually the high priest entered the holy of holies chamber to serve the divine box Nothing much is said of the Ark until c 790 BC the Judean King Ahaziah attached the Israelite King Jehoash and was totally defeated The victorious Jehoash then went to Jerusalem where he took everything from the palace and everything from the temple and he also took away the family of Obed Edom who are the family mentioned several times in the Bible as guardians of the Ark guardians of the Ark Therefore Jehoash removed the Ark from Jerusalem and took it north

to Samaria Nothing is said in the Biblical record of the Ark being anywhere near Jerusalem after this event in circa 790 BC In 740 736 BC the Judean King Ahaz paid a huge bribe to the Assyrian Emperor Tiglathpileser III to attack King Pekah of Ten Tribe Israel and as a result Israel was totally crushed by the Assyrian army A large number of Israelite nobles and leaders were immediately deported north to areas around Harran from where the patriarch Abraham has begun his migrations In successive campaigns by the Assyrian emperors Shalmaneser IV Sargon II and Sennacherib great numbers of the Israelite nation were deported north and up into the areas north of Harran In 702 BC Sennacherib recorded how he deported 200 120 people in one mass exodus The Assyrian records unmistakably and persistently call the Ten Tribes as the Khumry It is a virtual certainty that these deported Ten Tribes took the Ark with them from Israel Sennacherib was murdered by two of his sons in c 687 BC and civil war Convulsed the Assyrian Empire and as the heir Esarhaddon fought the murders the massed Ten Tribes took the opportunity to move westwards across both the upper branches of the Y shaped Euphrates river as described in the Book of Esdras II They moved slowly and unstoppably through Siasia Minor and the Greeks recorded their migration as that of the Kimmerio Khumry There is a record of the Khumry having the Ark with them on this journey from north of Assyria through Asia Minor and to the Dardanelles Finally around 650 BC the nation split into tow and one half migrated to Italy whilst the other half remained in the areas around Byzantium until circa 504 BC when they gathered on the island of Lemnos before sailing to Britain in the fleets An inscribed stone that was found on Lemnos in 1876 and now in the Athens museum that records this gathering and the intent to sail to Britain Either the Ark was taken to Etrurian Italy in circa 650 BC or it remained near the Dardanelles until around 504 BC before being brought into Britain The fact is that the Greal or Holy Greal is simply a record and a comparison would be that the Bible the Koran the American Declaration of Independence or the Two Tablets brought down the mountain by Moses would all be greals Britain is the land of the Holy Greal The search was begun to locate the Ark in Britain and this proved to be relatively straightforward but technically different The persistent ancient legend in the area north of Cardiff is that a great chest lies buried and this chest is guarded by two Cigfrangawr Giant Ravens It is not difficult to perceive that this great chest is the Ark that has two golden Cherubim fearsome dragons figures What emerged was that these had been a direct transfer of culture from Israel to Britain and all across the hills of South Wales there are gigantic mounds and these huge mounds are named and set out in a pattern to mirror the pattern of the major stars in the heavens Then there are several ancient tales that tell of the great plants moving on their orbits and being in conjunction with the main stars of the various constellations The journeys of the planets seen as moving and not fixed stars are tracing out routes that can be followed around the Star t Mound Maps on the ground In short our British ancestors left us clear records of where to go The Ark is at a place where the giant mound marks the start Regulus in Leo the Lion the Judean emblem The ancient place name is The Enclosure of the Ark and the central area is The Place of Worship The top of the large hillock has clearly been molded by the hand of man and satellite photography showed

spoil heaps tumbling down the slopes form a tunnel excavated horizontally to underground chambers Five very ancient drainage systems of the type used in antiquity to drain and keeps chambers dry are clearly evident Amazingly the Above sea Levels readings of satellite photography proved absolutely that the top 60 feet of this low dome shaped hill is a man made construction This is unassailable incontrovertible and absolute scientific proof of the highest order Ground penetrating radar and other methods shows at least two underground chambers and deep reading g electronic metal detection identifies a large non ferrous box of around four feet long and two feet wide This is the precise size of the Ark of the Covenant An approach has been made to the Welsh National Assembly and hopefully something positive will at last be done to restore Khumric British heritage cultures and history *Montana Adventure Guide* Genevieve Rowles,2009-10-24 Montana offers a wealth of outdoor fun for the active traveler from skiing and snowmobiling to fly fishing and horseback riding With stunning scenery and colorful history the state is one of the most appealing in the US And the best part it s rarely crowded Shadow of Worlds J. D. Lovil,2013-04-16 Existence has a billion faces each one an universe coexisting with our own In one such universe a man named Rafe has learned to walk between the worlds Rafe can walk through the shadows of the worlds Anything that he can imagine he can find in the worlds that might be During his wandering he has met other Walkers Some of these have been called gods by our ancestors Odin Zeus or Enlil Brahma or Kali all of these awoke to the truth of infinite worlds and learned to travel among the worlds with purpose The world lines encompass all possibilities and all possible worlds There are an infinite number of worlds in which humans and some who are nearly human live Beyond these worlds are the ones that twist the mind into madness worlds where the rules are not the familiar ones that we expect Far from the places of humanity there are places where in all the universe there are no places to stand where even the stars have never formed and some in which the hydrogen that fills our universe can never be Far beyond these worlds are places so incomprehensible that the eye refuses to see there and the ear cannot hear there places that are beyond madness where the mind dissolves with the merest experience In this place which is neither dark nor light where no rationality or order is possible there are things that live beyond time and space things that hunger for all things The Scourge is from this darkest place and it slowly intrudes into the shadows of order bringing madness to both Man and world It falls to the Walkers in Shadows to unite and to seal the way against the Scourge before the stain of the Scourge s touch can twist all worlds everywhere into madness Academy, with which are Incorporated Literature and the English Review ,1875 **The Western Film and T.V.
