Count to a Trillion John C. Wright,2024-07-02 A brilliant gunslinger leaves a decimated Earth to pursue the promise of alien intelligence in this highly impressive sci fi debut Kirkus Reviews Hundreds of years in the future after the collapse of the Western world young Menelaus Illation Montrose grows up in what was once Texas as a gunslinging duelist for hire But Montrose is also a mathematical genius and a romantic who dreams of a future in which humanity rises from the ashes to take its place among the stars The chance to help usher in that future comes when Montrose is recruited for a manned interstellar mission to investigate an artifact of alien origin Known as the Monument the artifact is inscribed with data so complex only a posthuman mind can decipher it So Montrose injects himself with a dangerous drug designed to boost his already formidable intellect It has the desired effect but also drives him mad Nearly two centuries later his sanity restored Montrose is awakened from cryo suspension with no memory of his posthuman actions to find Earth transformed in strange and disturbing ways and learns that the Monument still carries a secret he must decode one that will define humanity s true destiny

Military Occupations in the Age of Self-Determination James Gannon,2008-07-30 This book offers a perspective decidedly different from that of the Bush

Administration and its neoconservative supporters Since the United Nations embraced the right of national self determination in 1945 the historical odds have been unfavorable to great powers that impose military occupations on smaller nations This point is bolstered by the evidence from history and is particularly pertinent to the American occupation of Iraq where a robust insurgency has delayed projected successes by the administration and wartime planners Drawing on historical antecedents to the occupation of Iraq Gannon examines events such as the British Struggles in Palestine French enterprises in Algeria the Soviet debacle in Afghanistan and other instances in which occupying powers to demonstrate the struggles and failures of occupying powers in the face of determined insurgencies Since the United Nations adopted the principle of national self determination in 1945 great powers like the United States that occupy smaller nations like Iraq lose more often than not when confronted with credible insurgencies The evidence is taken from recent history the Zionist victory over Britain in Palestine and the defeats of France in Algeria America in Vietnam the Soviet Union in Afghanistan and Israel in Lebanon On the surface these outcomes seem perverse powerful modern armies brought down by rag tag rebels The explanation comes from the types of warfare fought Great powers are equipped to fight other great powers in great battles over large territory Rebels fight shadow wars neutralizing the fire power and mobility of the occupying army Insurgencies continue for years allowing political considerations to come into play including propaganda international pressure and the stream of dead and wounded returning from the war zone The home front turns against the war and new policymakers conclude that the nation s interests are best served by getting out History is not an exact science so the judgment here is expressed in probability not certainty witness the British defeat of insurgencies in Malaya and Kenya before giving up these colonies and the four decades old Israeli occupation and partial colonization of the West Bank
