The Lotus Generation:

The New Generation in Chinese Animation Shaopeng Chen, 2021-09-23 In 1995 Chinese animated filmmaking ceased to be a state run enterprise and was plunged into the free market Using key animated films as his case studies Shaopeng Chen examines new generation Chinese animation in its aesthetic and industrial contexts He argues that unlike its predecessors this new generation does not have a distinctive national identity but represents an important stage of diversity and exploration in the history of Chinese animation Chen identifies distinct characteristics of new generation filmmaking including an orientation towards young audiences and the recurring figure of the immortal monkey like Sun Wukong He explores how films such as Lotus Lantern Baolian Deng 1999 responded to competition from American imports such as The Lion King 1994 retaining Chinese iconography while at the same time adopting Hollywood aesthetics and techniques Addressing the series Boonie Bears Xiong Chumo 2014 5 Chen focuses on the films adaptation from the original TV series and how the films were promoted across generations and by means of both online and offline channels Discussing the series Kuiba Kui Ba 2011 2013 2014 Chen examines Vasoon Animation Studio's ambitious attempt to create the first Chinese style high fantasy fictional universe and considers why the first film was a critical success but a failure at the box office He also explores the relationship between Japanese anime and new generation Chinese animation Finally Chen considers how word of mouth social media engagement lay behind the success of Monkey King Hero is Back 2015

Genesis of the Cosmos Paul A. LaViolette, 2004-04-15 Provides compelling evidence that creation myths from the dawn of civilization correspond to cutting edge astronomical discoveries Exposes the contradictions in current cosmological theory and offers a scientific basis for the ancient myths and esoteric lore that encode a theory of continuous creation By the scientist who was the first to disprove the Big Bang theory on the basis of observational data Recent developments in theoretical physics including systems theory and chaos theory are challenging long held mechanistic views of the universe Many thinkers have speculated that the remnants of an ancient science survive today in mythology and esoteric lore but until now the scientific basis for this belief has remained cloaked in mystery Paul LaViolette reveals the remarkable parallels between the cutting edge of scientific thought and creation myths from the dawn of civilization With a scientific sophistication rare among mythologists LaViolette deciphers the forgotten cosmology of ancient lore in a groundbreaking scientific tour de force In direct nontechnical language he shows how these myths encode a theory of cosmology in which matter is continually growing from seeds of order that emerge spontaneously from the surrounding subquantum chaos Exposing the contradictions that bedevil the big bang theory LaViolette offers both the specialist and the general reader a controversial and highly stimulating critique of prevailing misconceptions about the seldom questioned superiority of modern science over ancient cosmology By restoring and reanimating this ancient scientific worldview Genesis of the Cosmos leads us beyond the restrictive metaphors of modern science and into a new science for the 21st century

Don't Be a Jerk Brad Warner, 2016-02-15 The Sh b genz The Treasury

of the True Dharma Eye is a revered eight hundred year old Zen Buddhism classic written by the Japanese monk Eihei Dogen. Despite the timeless wisdom of his teachings many consider the book difficult to understand and daunting to read. In *Don't Be a Jerk* Zen priest and bestselling author Brad Warner through accessible paraphrasing and incisive commentary applies Dogen's teachings to modern times. While entertaining and sometimes irreverent Warner is also an astute scholar who sees in Dogen very modern psychological concepts as well as insights on such topics as feminism and reincarnation. Warner even shows that Dogen offered a Middle Way in the currently raging debate between science and religion. For curious readers worried that Dogen's teachings are too philosophically opaque *Don't Be a Jerk* is hilarious, understandable and wise. **It's not a**

Creation... It's a Projection through Expression Dr. Kaushik Chaudhary, 2015-01-19 Let us ride into an epic journey from the inception of our universe to the projection of human race. It is a much awaited revelation of human history, the unified science which binds science and religion into a continuous process of existence and gives all our answers under a common purpose. What human is? What god is? Why we are here and how we are here. Generations upon generations in human history have been lost without knowing these answers. But if this book is in your hand you will not die before getting these ultimate answers. It is a guaranteed salvation which gives us the scientific meaning of what salvation is and how it is the final hope for this expanding universe. This is a re-launching of Upanishads which delivers the final truth of human life in a clear scientific language of modern science. *GITA for Gen A to Z* Ram Prakash Singhal, 2019-04-10 Yog Vaashishth Action and knowledge

are two wings of bird that must flutter in harmony to reach the horizon of liberation. A practiser controls his Indriys as a dog controls his wagging tail; otherwise the tail may start wagging the dog. Achieving personal liberation is not the finale of Gita; fulfilling duties is also important. God is the beneficiary of all good works as the government receives all taxes. Mountaineers practise regulated breathing. Similarly Krishn teaches Praanaayaam to enable practisers to climb upwards in the rarefied atmosphere of spirituality. Equality is the Acropolis where different streets of Yogic practices converge. Attaining Yog through meditation is like operating a bank locker. Its customer, the meditator, holds the first key of relentless practice. Banker, the God, applies His key and opens the locker only after the customer applies his key properly. An expert tennis player practises same shot repeatedly to make his muscles memorize it and respond accurately in real play. A Yogee should similarly keep his body, mind and soul fit. A spark ignites a firecracker that causes more fireworks. Similarly every spark of Sakaam Karma generates a chain of reactions. We must extinguish such sparks with water of self control. **The Secret Doctrine (Complete 3**

Volumes) Helena Blavatsky, 2022-11-13 In *The Secret Doctrine* Helena Blavatsky presents a profound exploration of the universal truths underlying religion, philosophy and science encapsulated in her meticulously woven narrative across three comprehensive volumes. This work employs a distinctive blend of esoteric language and analytical reasoning drawing upon an eclectic range of sources including Eastern spirituality, Western mysticism and the natural sciences. Written during the late 19th century the book aims to reveal the metaphysical framework of existence introducing concepts such as cosmic evolution.

and the unity of all life while challenging the prevailing materialistic worldview of her time Helena Blavatsky a co founder of the Theosophical Society was deeply influenced by her studies in Eastern philosophies and occult traditions Her travels in India and encounters with yogic practices and spiritual teachings profoundly shaped her worldview Blavatsky s intent in writing The Secret Doctrine arose from her mission to disseminate these esoteric teachings bridging the gap between science and spirituality and appealing to an increasingly skeptical society This essential text is recommended for those seeking an intellectual awakening or a deeper understanding of spiritual philosophies Blavatsky s intricate ideas encourage readers to contemplate the interconnectedness of all life and prompt an exploration of their own spiritual paths making The Secret Doctrine a hallmark of esoteric literature that remains relevant and thought provoking today **The Failure to Produce**

Art, Religion, and Politics in Medieval China Qiang Ning,2004-01-01 The cave temple complex popularly known as the Dunhuang caves is the world s largest extant repository of Tang Buddhist art Among the best preserved of the Dunhuang caves is the Zhai Family Cave built in 642 It is this remarkable cave temple that forms the focus of Ning Qiang s cross disciplinary exploration of the interrelationship of art religion and politics during the Tang In his careful examination of the paintings and sculptures found there the author combines the historical study of pictures with the pictorial study of history By employing this two fold approach he is able to refer to textual evidence in interpreting the formal features of the cave temple paintings and to employ visual details to fill in the historical gaps inevitably left by text oriented scholars The result is a comprehensive analysis of the visual culture of the period and a vivid description of social life in medieval China and remained hidden until the early 1940s Once exposed the early artwork appeared fresh and colorful in comparison with other Tang paintings at Dunhuang The relatively fine condition of the Zhai Family Cave is crucial to our understanding of the original pictorial program found there and offers a unique opportunity to investigate the visual details of the original paintings and sculptures in the cave At the same time the remaining traces of reconstruction and redecoration provide a new perspective on how for over three centuries a wealthy Chinese clan used its familial cave as a political showcase Art Religion

and Politics in Medieval China The Dunhuang Cave of the Zhai Family is an in depth study on the meaning and function of an exemplary Tang memorial cave and an important contribution to studies of Chinese religion politics sociology literature and folklore as well as to Chinese art history , **The Faiths of the World** James Gardner,2025-08-30 Reprint of the original first published in 1858 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage
