

"What do you think? Is globalization a positive or negative force in the world today?"

1st - *State your general opinion on the topic

2nd - State a specific reason for your opinion and an example

3rd - Acknowledge the point of view of one of the speaker's in the conversation. Explain why you agree or disagree with reasons and/or examples.

4th - *Summarize the main point of your post.

In my opinion, globalization is a positive force in the world today. My personal belief is that when nations interact together, it leads to less suffering. For example, people who suffer from natural catastrophes can import goods and services to help mitigate their losses and recover quickly. Citizens of nations who may be going through war or famine can flee to neighboring countries for shelter. I understand Alex's concern over cultural homogenization, but I believe she misses another critical point. Much of the food found in grocery stores around the world is imported. Our very diet is due to the international trade partnerships and alliances forged over the last half of the 20th century. International trade and travel are not possible in a world without globalization, which is why I believe it is crucial to maintain our current global policies for a safer world with a higher standard of living.
