Stonewalled Sharyl Attkisson, 2014-11-04 Seasoned CBS reporter Sharyl Attkisson reveals how she has been electronically surveilled while digging deep into the Obama Administration and its scandals and offers an incisive critique of her industry and the shrinking role of investigative journalism in today s media Americans are at the mercy of powerful figures in business and government who are virtually unaccountable The Obama Administration in particular has

broken new ground in its monitoring of journalists intimidation and harassment of opposition groups and surveillance of private citizens Sharyl Attkisson has been a journalist for more than thirty years During that time she has exposed scandals and covered controversies under both Republican and Democratic administrations She has also seen the opponents of transparency go to ever greater lengths to discourage and obstruct legitimate reporting Attkisson herself has been subjected to opposition research efforts and spin campaigns These tactics increased their intensity as she relentlessly pursued stories that the Obama Administration dismissed Stonewalled is the story of how her news reports were met with a barrage of PR warfare tactics including online criticism as well as emails and phone calls up the network chain of command in an effort to intimidate and discourage the next story In Stonewalled Attkisson recounts her personal tale setting it against the larger story of the decline of investigative journalism and unbiased truth telling in America today **Forbes** Bertie Charles Forbes,2007 This business magazine covers domestic and international business topics Special issues include Annual Report on American Industry Forbes 500 Stock Bargains and Special Report on Multinationals **Managing eBook Metadata in Academic Libraries** Donna E Frederick,2016-01-07 Managing ebook Metadata in Academic Libraries Taming the Tiger tackles the topic of ebooks in academic libraries a trend that has been welcomed by students faculty researchers and library staff However at the same time the reality of acquiring ebooks making them discoverable and managing them presents library staff with many new challenges Traditional methods of cataloging and managing library resources are no longer relevant where the purchasing of ebooks in packages and demand driven acquisitions are the predominant models for acquiring new content Most academic libraries have a complex metadata environment wherein multiple systems draw upon the same metadata for different purposes This complexity makes the need for standards based interoperable metadata more important than ever In addition to complexity the nature of the metadata environment itself typically varies slightly from library to library making it difficult to recommend a single set of practices and procedures which would be relevant to and effective in all academic libraries Considering all of these factors together it is not surprising when academic libraries find it difficult to create and manage the metadata for their ebook collections This book is written as a guide for metadata librarians other technical services librarians and ancillary library staff who manage ebook collections to help them understand the requirements for ebook metadata in their specific library context to create a vision for ebook metadata management and to develop a plan which addresses the relevant issues in metadata management at all stages of the lifecycle of ebooks in academic libraries from selection to deselection or preservation Explores the reasons behind creating records for our resources and challenges libraries to think about what that means for their context Discusses the complex nature of academic libraries and the electronic resources they require Encourages librarians to find their own way to manage metadata **Droids Made Simple** Martin Trautschold,Gary Mazo,MSL Made Simple Learning,Marziah Karch,2011-08-19 If you have a Droid series smartphone Droid Droid X Droid 2 or Droid 2 Global and are eager to get the most out of your device
