Agricultural Cooperation; Legal, Economic and Organization Information Collected by the Bureau of Agricultural Economics ,1926 Current Catalog National Library of Medicine (U.S.),1993 First multi year cumulation covers six years 1965 70 **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), Energy Abstracts for Policy Analysis ,1989 *Essays and Monographs* William Francis Allen,1890 Public Health Reports ,1985 *Newsletter* ,1990 Real Soldiering Brian McAllister Linn,2023-06-23 What happens to the US Army after the battles are over the citizen soldiers depart and all that remains is the Regular Army In this pathbreaking work Brian Linn argues that in each decade following every major conflict since the War of 1812 the postwar army has undergone a long painful and remarkably consistent recovery process as it struggled to build a new model force to replace the Old Army that entered the conflict Departing from the Washington centric institutional histories of the past Linn sets his focus on soldiering in the field distilling the lived experiences of officers and troopers who were responsible for cleaning up the messes left in the wake of war Real Soldiering provides the first comprehensive study of the US Army s transition from war to peace It is both a wide ranging history of the army s postwar experience and a work detailing the commonalities of American soldiering over almost two centuries Linn challenges three common historical interpretations confusing Washington policy with implementation in the field conflating postwar armies with prewar armies and describing certain postwar eras as distinct and transformational Rather Linn examines the postwar force as a distinct entity worthy of study as a unique and important part of US Army history He identifies the common dilemmas faced by the service in the aftermath of every war These problems included such military priorities as defense legislation preparing for the next war and adapting to new missions But they also incorporated often overlooked but for those who lived through them more important consistencies such as officer acquisition and career management personnel turbulence insufficient personnel and equipment and many others Real Soldiering represents over four decades of research into the US Army and is deeply informed by Linn s experiences teaching and working with soldiers

It breaks new ground in lifting out the similarities of each postwar army while still appreciating their individual complexities. It identifies the leaders and the methods the service employed to escape the inevitable postwar drawdowns. Insightful and entertaining, provocative and empathetic and a work of history with immediate relevance, *Real Soldiering* will resonate with military historians, defense analysts and those who have proudly worn the US Army uniform. *Technical Knowledge in Europe, 1200-1500 AD* Ricardo Córdoba de la Llave, Javier López Rider, 2022-10-06 This volume brings together works on the development of scientific and technical knowledge in Europe between the 13th and 16th centuries with a special focus on the Iberian Peninsula. These works, which rely heavily on the evidence provided by the written record, pay particular attention to the content of recipe books and technical treatises from the 15th and 16th centuries. The volume addresses issues such as manuscript and technical recipe book analysis, archaeological investigation of production areas and archaeometric analysis, presenting a holistic and comprehensive perspective of technical knowledge during the Middle Ages. It highlights different approaches and perspectives in the analysis of medieval technical and technological knowledge in order to arrive at equally broad and complementary conclusions.
