

Pictographs

A **pictograph**, or **picture graph**, uses pictures to show data. It is a method of **data visualization**. The **key** of the pictograph explains the numerical value that the symbol represents.

Tally charts can be represented by pictographs.

For example, the tally chart below shows the favorite season for each of Mr. Johan's students. The picture (symbol) of the smiley face represents 1 vote. In this case, the number of tally marks is equivalent to the number of smiley face symbols. The pictograph makes it easy to answer questions such as, what is the number of students that prefers summer?
