No Place Left to Bury the Dead Nicole Itano, 2007-11-20 EVERY DAY in Africa approximately 7 000 men women and children are erased from the face of this planet by the devastating AIDS virus that even after more than two and a half decades continues to wreak havoc around the globe especially in underdeveloped nations *No Place Left to Bury the Dead* dares to go where media governments and ordinary individuals in the West seldom venture face to face with fellow humans suffering in the shadow of our collective ignorance and neglect In this haunting investigation acclaimed journalist Nicole Itano goes beyond traditional journalistic methods as she eats sleeps and lives with the women who struggle daily with the raging epidemic of AIDS Working from the personal accounts of a few real women living with the disease Itano traces their moments of discovery and diagnosis their first symptoms and the ways they cope with treatment and manage the news with their families Itano s masterful blend of the personal scientific and historical turns statistics into stories and balances tragedy with hope as she outlines the scope of new treatment and prevention In a time when celebrity and political heavy hitters such as Bono and Bill Clinton are rushing to find a remedy for Africa s increasing problem *No Place Left to Bury the Dead* shows the world how the transformation of a few courageous women can heal entire communities and eradicate denial and how books like these increase global awareness of one of the worst epidemics in human history Like *And the Band Played On* and *The Coming Plague* this book is a wake up call that is urgently needed **The A to Z of Careers in South Africa** ,1995

Searching for Daddy Christine Joanna Hart, 2009-12-10 A horrifying story of a girl scarred by religious mania and childhood abuse who is driven to believe one of Britain s most infamous criminals was her father Christine s childhood was utterly desolate Starved of all love she was so consumed with loneliness and fear that she was drawn in to the world of a dangerous serial killer Christine was abandoned as a baby by her mother on the doorstep of a convent She was adopted but this only turned out to be the start of a new nightmare When she was 13 she was sent her back to the orphanage It was this act of betrayal that pushed her to breaking point Christine began a desperate quest for her real father but a twisted path of events finally took her face to face with Ian Brady the notorious Moors Murderer It was this extraordinary encounter that forced Christine to confront reality and allowed her to reclaim her life *Searching For Daddy* is a shocking true story of desperate loneliness and phenomenal courage that will move and inspire anyone who reads it **Africa's Lions** Haroon

Bhorat, Finn Tarp, 2016-11-08 Examining the economic forces that will shape Africa s future *Africa s Lions* examines the economic growth experiences of six fast growing and or economically dominant African countries Expert African researchers offer unique perspectives into the challenges and issues in Ethiopia Ghana Kenya Mozambique Nigeria and South Africa Despite a growing body of research on African economies very little has focused on the relationship between economic growth and employment outcomes at the detailed country level A lack of empirical data has deprived policymakers of a robust evidence base on which to make informed decisions By harnessing country level household firm and national accounts

data together with existing analytical country research the authors have attempted to bridge this gap The growth of the global working age population to 2030 will be driven primarily by Africa which means that the relationship between growth and employment should be understood within the context of each country s projected demographic challenge and the associated implications for employment growth A better understanding of the structure of each country s workforce and the resulting implications for human capital development the vulnerably employed and the working poor will be critical to informing the development policy agenda As a group the six countries profiled in Africa s Lions will largely shape the continent s future Each country chapter focuses on the complex interactions between economic growth and employment outcomes within the individual Africa s Lions context
