Cosmopolitan Elites and the

Making of Globality Leonie Wolters, 2024-01-11 As ideologies such as communism fascism and various nationalisms vied for global domination during the first half of the 20th century this book shows how a specific group of individuals a cosmopolitan elite became representatives of those ideologies the world over Centering on the Indian intellectual M N Roy Cosmopolitan

Elites and the Making of Globality situates his life within various social circles that covered several ideological realms and continents An example of an individual who represented ideologies such as anticolonial nationalism communism and humanism Roy is identified as unusual but by no means singular in this capacity and shows how other elites were similarly able to represent ideologies that sought to make the world anew This book explores how Roy and his peers and competitors became a political elite as they cultivated a cosmopolitan reputation that meant they were taken seriously even when speaking of regions outside of their own By considering the social and performative practices that turned them into credible global cosmopolitans Wolters uncovers the exclusive basis on which the universal claims of world changing ideologies were made

Cold War Art Worlds Simone Wille, 2025-11-05 During the Cold War the Central European capital city Prague along with other previously less noticed locations in the polarised post war world emerged as a key site where an art world of particular importance for artists from South Asia developed By emphasising cultural mobility as a catalyst for exchange and network building this book challenges and complicates assumptions about Cold War binaries of East and West and the polarisation between so called totalitarian regimes and free cultures Positioning Prague as a nexus where South Asian modernisms intersected with multiple peoples histories and ideologies in the post World War II era it offers a narrative of decolonisation that rejected rigid systemic alignment in favour of participation across blocs by prioritising migratory aesthetics over nationalist parochialism Well researched and rich in archival materials this book proposes new ways of writing art histories and makes a significant contribution to both Cold War studies and critical global modernism studies

Anti-Colonialism and the Crises of Interwar Fascism Michael Ortiz, 2023-01-12 What is fascism Is it an anomaly in the history of modern Europe Or its culmination In Anti Colonialism and the Crises of Interwar Fascism Michael Ortiz makes the case that fascism should be understood in part as an imperial phenomenon He contends that the Age of Appeasement 1935 1939 was not a titanic clash between rival socio political systems fascism and democracy but rather an imperial contest between satisfied and unsatisfied empires Historians have long debated the extent to which Western imperialisms served as ideological and intellectual precursors to European fascisms To date this scholarship has largely employed an inside out methodology that examines the imperial discourses that pushed fascist regimes outward into Africa Asia and the Americas While effective such approaches tend to ignore the ways in which these places and their inhabitants understood European fascisms Addressing this imbalance Anti Colonialism adopts an outside in approach that analyses fascist expansion from the perspective of Indian anti colonialists such as Jawaharlal Nehru Subhas Bose and Mohandas Gandhi Seen from India the crises of Interwar fascism the Second Italo Ethiopian War Spanish Civil War Second Sino Japanese War Munich Agreement and the outbreak of the Second World War were yet another eruption of imperial expansion analogous although not identical to the Scramble for Africa and the Treaty of Versailles Whether fascist democratic or imperialist Europe s great powers collectively negotiated the fate of smaller nations

Meanings of Bandung Quynh N. Pham, Robbie Shilliam, 2016-11-02

The Bandung Conference was the seminal event of the twentieth century that announced envisaged and mobilized for the prospect of a decolonial global order. It was the first meeting of Asian and African states most of which were newly independent to promote Afro Asian economic and cultural cooperation and to oppose colonialism or neocolonialism by any nation. This book focuses on Bandung not only as a political and institutional platform but also as a cultural and spiritual moment in which formerly colonized peoples came together as global subjects who with multiple entanglements and aspirations co imagined and deliberated on a just settlement to the colonial global order. It conceives of Bandung not just as a concrete political moment but also as an affective touchstone for inquiring into the meaning of the decolonial project more generally. In sum the book attends to what remains woefully under studied Bandung as the enunciation of a different globalism an alternative web of relationships across multiple borders and an other archive of sensibilities desires as well as fears.

The Interwar World Andrew Denning, Heidi J.S. Tworek, 2023-08-29 The Interwar World collects an international group of over 50 contributors to discuss analyze and interpret this crucial period in twentieth century history. A comprehensive understanding of the interwar era has been limited by Euro American approaches and strict adherence to the temporal limits of the world wars. The volume's contributors challenge the era's accepted temporal and geographic framings by privileging global processes and interactions. Each contribution takes a global thematic approach integrating world regions into a shared narrative. Three central questions frame the chapters. First when was the interwar? Viewed globally the years 1918 and 1939 are arbitrary limits and the volume explicitly engages with the artificiality of the temporal framework while closely examining the specific dynamics of the 1920s and 1930s. Second where was the interwar? Contributors use global history methodologies and training in varied world regions to decenter Euro American frameworks engaging directly with the usefulness of the interwar as both an era and an analytical category. Third how global was the interwar? Authors trace accelerating connections in areas such as public health and mass culture counterbalanced by processes of economic protectionism exclusive nationalism and limits to migration. By approaching the era thematically the volume disaggregates and interrogates the meaning of the global in this era. As a comprehensive guide this volume offers overviews of key themes of the interwar period for undergraduates while offering up to date historiographical insights for postgraduates and scholars interested in this pivotal period in global history.

Coolie Migrants, Indian Diplomacy Kalathmika Natarajan, 2025-11-14 Over the centuries millions of migrant labourers sailed from the Indian subcontinent across the Bay of Bengal and Indian Ocean to shape what is now the world's largest diaspora This book recovers the histories and legacies of those coolie migrants and presents a new paradigm for the diplomatic history of independent India going beyond high politics to explore how indenture emigration and international

relations became entangled Before and after independence Indian notions of the international realm as a sanctified space were shaped by migrant journeys this was a space of anxiety in which to negotiate the coolie stain on the country's reputation Discourse was defined by intersections of caste class race and gender and framed the migrant worker as the quintessential other of Indian diplomacy Drawing on rich multi archival analysis spanning the vast geographies of labour migration Kalathmika Natarajan pieces together the stories of quarantine camps en route to Ceylon cultural and educational missions in the Caribbean discretionary passport policies in India and the mediation of immigrant life in Britain The result is a nuanced history from the interwar period to the decades after independence and a critical analysis centring both caste and the negotiation of undesirable mobility as foundational to Indian diplomacy

International Cooperation in the Early Twentieth Century Daniel Gorman,2017-09-21 The early 20th century world experienced a growth in international cooperation Yet the dominant historical view of the period has long been one of national military and social divisions rather than connections International Cooperation in the Early Twentieth Century revises this historical consensus by providing a more focused and detailed analysis of the many ways in which people interacted with each other across borders in the early decades of the 20th century It devotes particular attention to private and non governmental actors Daniel Gorman focuses on international cooperation international social movements various forms of cultural internationalism imperial and anti imperial internationalism and the growth of cosmopolitan ideas The book incorporates a non Western focus alongside the transatlantic core of early 20th century internationalism It interweaves analyses of international anti colonial networks ideas emanating from non Western sites of influence such as Japan China and Turkey the emergence of networks of international indigenous peoples in resistance to a state centric international system and diaspora and transnational ethno cultural religious identity networks

Bengal and Italy Paromita Chakravarti,Mario Prayer,2023-07-07 The ten chapters collected in this book manifest the current global interest in trans border dialogues and trace the origins and development of Italian and Bengali internationalisms in the period from the mid 19th to the early 20th century Despite having differing political statuses and lacking a shared geographical or historical space Bengal and Italy remained uniquely connected and at times actively sought to transcend different kinds of constraints in their search for a significant dialogue and mutual enrichment in the fields of literature music architecture art cinema diplomacy entrepreneurship travels education and intellectual engagement In this context the volume confronts strategies of evaluation adopted by prominent representatives of the Bengali and Italian cultural environments with particular emphasis on readings embedded in the moment of contact Both regions benefitted from this elective affinity as they advanced along their respective paths towards a fuller awareness of their specific identity and thus set a positive example of transcultural understanding which may inspire today's world

Universalist Hopes in India and Europe Ana

Jelnikar,2016-02-18 In 1913 Rabindranath Tagore received the Nobel Prize in Literature World famous overnight he was translated into numerous languages Meanwhile in Slovenia a young still anonymous poet felt strongly drawn to the newly available works of the Indian bard This young man was Sre ko Kosovel who is today hailed as Slovenia s leading avant garde poet of the interwar period But what could Kosovel then barely out of his teens have in common with a figure of Tagore s stature Deeply affected by Italy s conquest of parts of Slovene populated territory Kosovel was able to identify with Tagore and relate to the historical predicament of colonial subjugation Despite coming from different backgrounds they were kindred spirits a dynamic creative ideal of universalism lay at the core of their concerns As a true universalist in the sense of feeling empathy with the less fortunate it was more in the spirit of equality that Kosovel approached Tagore This volume is the first comparative study of the writings of these two poets who lived worlds apart but spoke in strikingly similar voices It explores the links between India and East Central Europe in the early decades of the twentieth century and gives expression to responses from within Europe that have largely been overlooked in postcolonial and cultural studies
