interpretation of the Little House books that examines how this beloved body of children's literature found its way into many facets of our culture and consciousness even influencing the responsiveness of Americans to particular political views. Because both Wilder and her daughter Rose Wilder Lane opposed the New Deal programs being implemented during the period in which they wrote their books, reflect their use of family history as an argument against the state's protection of individuals from economic uncertainty. Their writing emphasized the isolation of the Ingalls family and the family's resilience in the face of crises and consistently equated self-sufficiency with family acceptance, security, and warmth. Fellman argues that the popularity of these books, abetted by Lane's overtly libertarian views, helped lay the groundwork for a negative response to big government and a positive view of political individualism contributing to the acceptance of contemporary conservatism while perpetuating a mythic West. Beyond tracing the emergence of this influence in the relationship between Wilder and her daughter, Fellman explores the continuing presence of the books and their message in modern cultural institutions from classrooms to tourism newspaper editorials to Internet message boards. Little House Long Shadow shows how ostensibly apolitical artifacts of popular culture can help explain shifts in political assumptions. It is a pioneering look at the dissemination of books in our culture that expands the discussion of recent political transformations and suggests that sources other than political rhetoric have contributed to Americans' renewed appreciation of individualist ideals.

Thompson Jr., 2007-11-19 Most congregations today exist in what George Thompson calls the middle of anywhere They live comfortably with their surrounding culture focusing their energies on serving the needs of their current members These congregations have many strengths and gifts that they can exercise without changing a thing But Thompson envisions a deeper more prophetic call for congregations to explore the meaning of being in the world but not of it a church on the edge of somewhere Thompson sees a church that is deeply engaged in ministering to the community while calling on others to commit to doing the same By analyzing the interaction between a congregation's focus of identity and their stance with the world Thompson has created a helpful grid for congregations to place themselves on today's cultural map A congregation that sees itself as existing on the margins of society will look different than one that sees itself as embedded in society A congregation that hears a call to serve the surrounding community will look different from one that focuses on its internal needs Knowing where they stand now is the key for congregations to discover where they must go in the future to fully live out their call to be God's people in the world
