A Research Agenda for Federalism Studies John Kincaid, 2019-12-27 In this forward thinking book fifteen leading scholars set forth cutting edge agendas for research on significant facets of federalism including basic theory comparative studies national and subnational constitutionalism courts self rule and shared rule centralization and decentralization nationalism and diversity conflict resolution gender equity and federalism challenges in Africa Asia and the European Union More than 40 percent of the world's population lives under federal arrangements making federalism not only a major research subject but also a vital political issue worldwide

Federalism as a Tool of Conflict Resolution Soeren Keil, Elisabeth Alber, 2021-05-13 Looking at the growing use of federalism and decentralization as tools of conflict resolution this book provides evidence from several case studies on the opportunities and challenges that territorial solutions offer when addressing internal conflicts within a variety of countries Federalism has been used as a tool of conflict resolution in a number of conflict situations around the world The results of this have been mixed at best with some countries moving slowly to the paths of peace and recovery while others have returned to violence This volume looks at a number of case studies in which federalism and decentralization have been promoted in order to bring opposing groups together and protect the territorial integrity of different countries Yet it is demonstrated that this has been incredibly difficult and often overshadowed by wider concerns on secession de and re centralization and geopolitics and geoeconomics While federalism and decentralization might hold the key to keeping war torn countries together and bringing hostile groups to the negotiation table we nevertheless need to rethink under which conditions territorial autonomy can help to transform conflict and when it might contribute to an increase in conflict and violence Federalism alone so the key message from all contributions cannot be

enough to bring peace yet without territorial solutions to ongoing violence it is also unlikely that peace will be achieved The chapters in this book were originally published as a special issue of *Ethnopolitics* **Federalism and Decentralization in**

Africa Leonid Issaev, Andrey Zakharov, 2024-11-09 This book examines the challenges and opportunities of administrative and territorial reconstruction in Africa from independence until the present time In light of the rise of separatist movements in various African states and the ethnic linguistic and religious heterogeneity of many African societies the book sheds new light on the fragmentation and decentralization of the African continent The authors analyze the mechanisms forms and models of decentralization practiced today in Africa taking into account both federalist and unitary experiences of decentralization and discuss the potential of federalism to resolve conflicts within the continent The generalizations made in the course of such an analysis can significantly enrich the current vision of the development of the African continent and its future prospects The book will appeal to scholars and students of political science and African studies **Decentralization**

and Constitutionalism in Africa Charles M. Fombad, Nico Steytler, 2019-09-10 This collection of essays assesses the efforts of African governments to constitutionalise decentralisation be it in the form of federalism local government or traditional authorities Since the end of the Cold War jurisdictions across Africa have witnessed an ostensible return to multi party democracy within the paradigm of constitutionalism and the rule of law Linked to the democratisation process many countries took steps to decentralize power by departing from the heavily centralized systems inherited from colonial regimes The centralization of power typically characterized by the personalization and concentration of power in the hands of leaders and privileged elites in capital cities mostly resulted in repressive regimes and fragile states As decentralisation is a response to these challenges this volume analyses the dynamic relationship between the efforts to implement decentralization and presence or absence of constitutionalism This volume examines a variety of forms and degrees of decentralization found across Africa It advances a new understanding of trends and patterns and facilitates the exchange of ideas among African governments and scholars about the critical role that decentralisation may play in democratization of and constitutionalism in Africa *Interpreting the Ethiopian Revolution* Etana H. Dinka, 2025-10-16 Fifty years after the 1974 Ethiopian revolution

Etana H Dinka brings together a who's who of modern Ethiopian studies in order to offer this long overdue analysis of the revolution and its legacies With contributions both from seasoned academics many of whom wrote about the revolution as it developed and from representatives of a younger generation this six part collection offers new insights not only into the revolution itself but also into issues such as the Red Terror the EPRDF revolution of 1991 and Abiy Ahmed's repositioning of Ethiopia after 2018 Such wide ranging analyses cumulatively cast Ethiopia's three successive post revolution regimes not as separate entities but rather as successive attempts to fulfil the promise of the revolution surrounding issues such as ethnicity the nationalities question economic development and the land tenure question In developing this model the collection captures the defining developments and issues in Ethiopia the Horn and the Red Sea region over the past fifty years and it

speaks directly to a global body of knowledge about revolutions state making projects and empires and warfare and military interventions in politics A unique collection that expands the historical revolutionary analyses of Ethiopian politics and society to the present in order to suggest new ways of ensuring social economic and environmental justice for all this book is a must read for researchers and upper level students interested in Ethiopia the Horn of Africa African Studies and revolutionary politics and land economics in general **Eurasian Empires as Blueprints for Ethiopia** Asnake

Kefale,Tomasz Kamusella,Christophe Van der Beken,2021-02-17 This book is a contribution to the global history of the transfer of political ideas as exemplified by the case of modern Ethiopia Like many non European nation states Ethiopia adopted a western model of statehood that is the nation state Unlike the postcolonial polities that have retained the mode of statehood imposed on them by their colonial powers Ethiopia was never successfully colonized leaving its ruling elite free to select a model of modern western statehood In 1931 via Japan they adopted the model of unitary ethnolinguistically homogenous nation state in turn copied by Tokyo in 1889 from the German Empire founded in 1871 Following the Ethiopian Revolution 1974 that overthrew the imperial system the new revolutionary elite promised to address the nationality question through the marxist leninist model The Soviet model of ethnolinguistic federalism originally derived from Austria Hungary was introduced in Ethiopia first in 1992 and officially with the 1995 Constitution To this day the politics of modern Ethiopia is marked by the tension between these two opposed models of the essentially central European type of statehood The late 19th century German German quarrel on the proper model of national statehood for Germany or more broadly modern central Europe remains the quarrel of Ethiopian politics nowadays The book will be useful for scholars of Ethiopian and African history and politics and also offers a case in comparative studies on the subject of different models of national statehood elsewhere Multinational Federalism in Bosnia and Herzegovina Soeren Keil,2016-04-15

In 1995 none of the political parties representing the peoples of Bosnia preferred a federal option Yet Bosnia became a federal state highly decentralised and with a complex institutional architecture This solution was imposed on them by international actors as a result of peace negotiations following the Yugoslav wars Political parties in post war Bosnia were not willing to identify with or accept the federation The international community intervened taking over key decisions and so Bosnia and Herzegovina became the first state to experience a new model of federalism namely imposed federalism and a new model of a federal state that of the internationally administered federation By combining comparative politics conflict analysis and international relations theory Soeren Keil offers a unique analysis of federalism in post Dayton Bosnia and Herzegovina By exploring this model of imposed federalism not only does this study greatly contribute to the literature on developments in Bosnia and Herzegovina it also re evaluates comparative federalism in theory and practice This study also offers important conclusions for similar cases both in the Western Balkans region and the wider world where international involvement and federalism as a method of conflict resolution in diverse societies becomes ever more prevalent and important Defunct Federalisms Emilian

Kavalski, Magdalena Zolkos, 2016-05-13 Since the end of the Cold War the global arena has become a place for dynamic change in particular for federal political units The focus on defunct federalisms draws attention not only to the difference between state making and nation building it also points to the fact that state making does not necessarily lead to the creation of a national identity This comparative volume looks at the track record of several defunct federalisms to identify options that have been overlooked and decisions that precipitated the collapse Bringing together insights from the study of state failure and federal collapse it examines the ways in which parallel assessment is crucial for suggesting the complex structures of identity accommodation in federal entities The volume is ideal for advanced undergraduates and graduate students as well as university lecturers and researchers working on the issues related to contemporary federalism history of federal units and the questions of national identity

The Soviet Union - Federation or Empire? Tania Raffass, 2012-06-14 The Soviet Union is often characterised as nominally a federation but really an empire liable to break up when individual federal units which were allegedly really subordinate colonial units sought independence This book questions this interpretation revisiting the theory of federation and discussing actual examples of federations such as the United States arguing that many federal unions including the United States are really centralised polities It also discusses the nature of empires nations and how they relate to nation states and empires and the right of secession highlighting the importance of the fact that this was written in to the Soviet constitution It examines the attitude of successive Soviet leaders towards nationalities and the changing attitudes of nationalists towards the Soviet Union Overall it demonstrates that the Soviet attitude to nationalities and federal units was complicated wrestling in a similar way to many other states with difficult questions of how ethno cultural justice can best be delivered in a political unit which is bigger than the national state

From Socialist to Post-Socialist Cities Alexander C. Diener, Joshua Hagen, 2016-04-14 The development of post socialist cities has become a major field of study among critical theorists from across the social sciences and humanities Originally constructed under the dictates of central planners and designed to serve the demands of command economies post socialist urban centers currently develop at the nexus of varied and often competing economic cultural and political forces Among these nationalist aspirations previously simmering beneath the official rhetoric of communist fraternity and veneer of architectural conformity have emerged as dominant factors shaping the urban landscape This book explores this burgeoning field of research through detailed case studies relating to the cultural politics of architecture urban planning and identity in the post socialist cities of Eurasia This book was published as a special issue of Nationalities Papers

Transnational Constitution Making Alicia Pastor y Camarasa, 2024-06-14 This book examines the largely neglected but crucial role of transnational actors in democratic constitution making The writing or rewriting of constitutions is usually a key moment in democratic transitions But how exactly does this take place Most contemporary comparative constitutional literature draws on the concept of constituent power the power of the people to address this moment But what this overlooks this book argues is the important role of

external transnational actors who tend to play a crucial role in the process Drawing on sociolegal methodologies but informed by new legal realism this book develops a new theoretical framework for examining the involvement of such actors in constitution making Empirically grounded the book uncovers a more comprehensive picture of how constitution making unfolds on the ground Illuminating the power dynamics at play during the legal process it reveals not only the wide range of external actors involved but also the continuity between decolonisation and post Cold War constitution making This book the first to provide an in depth examination of external actor involvement in constitution making will appeal to scholars of constitutional law sociolegal studies law and development and transitional justice
