Understanding Leadership Robert M. McManus, Gamaliel Perruci, 2015-04-10 Lao Tzu, Marx, the Buddha, Ibsen, Machiavelli: these are just a few of the world's great thinkers who have weighed in on the subject of leadership over the centuries. Yet the contemporary student of leadership often overlooks many of these names in favour of more recent theorists hailing from the social sciences. *Understanding Leadership: An Arts and Humanities Perspective* takes a different angle, employing the works of the great philosophers, authors, and artists found in world civilization and presenting an arts and humanities perspective on the study of leadership. The authors build their conceptual framework using The Five Components of Leadership Model, which recognizes the leader, the followers, the goal, the environmental context, and the cultural values and norms that make up the leadership process. Supporting the text are a wealth of case studies which reflect on works such as Ayn Rand's novella *Anthem*, Eugène Delacroix's painting *Liberty Leading the People*, Charlie Chaplin's film *Modern Times*, Athol Fugard's play *Master Harold and the Boys*, Lao Tzu's poetic work *Tao Te Ching*, and Antonín Dvořák's *New World Symphony*. The authors also introduce studies from various world cultures to particularly illustrate the role cultural values and norms play in leadership. This illuminating framework promotes the multidimensional thinking that is necessary for understanding and problem solving in a complex world. *Understanding Leadership: An Arts and Humanities Perspective* will be a valuable textbook for both undergraduate and postgraduate leadership students, while leadership professionals will also appreciate the book's unique liberal arts and cultural approach.

Leading Leaders Jeswald Salacuse, 2005-11-03 How do you leverage the assets of the talented and powerful while making sure that egos remain unbruised? *Leading Leaders* breaks the challenge down into the Seven Daily Tasks of Leadership and shows you how to carry out each task when you have to manage other leaders. The leaders you are called upon to lead may be other executives, highly educated experts, investors, board members, government officials, doctors, lawyers, or other professionals. The potential contributions of these elites to any organization are vital, but the likelihood of friction is also high if you don't manage relationships carefully. In any case, they are people with significant resources and strong opinions. The seven tasks and the special challenges they entail in *Leading Leaders* are: Direction: How do you negotiate a vision for the organization that other leaders will buy into? Integration: How do you make stars a team? Mediation: How do you resolve conflicts over turf and power among other leaders so the organization can move forward? Education: How do you educate people who think they are already educated? Motivation: How do you move other leaders who already seem to have everything to do the right thing for the organization? Representation: How do you lead your organization's outside constituents while still leading leaders inside? Trust Creation: How do you gain and keep other
